YEG Community Response to COVID-19 Resource Guide

In efforts to share resources available with off-reserve members, Treaty 8 First Nations of Alberta has provided a link on their website to a resource guide. The links below can be shared to incoming off-reserve inquiries and posted on your social media outlets.

Date Posted: March 24th, 2020

Treaty 8 First Nations YEG Community Response to COVID-19 update: <http://www.treaty8.ca/News?id=8>

A group of Edmonton residents have put together a guide to help direct people to the following information:

- Medical Help
- Financial Help
- Food Options
- Education Resources
- Mental Health Resources
- Family & Community Resources
- Business Resources
- Etc.

Click this link for Resource Guide:

015. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY EMERGENCY FINANCIAL ASSISTANCE (OFF-RESERVE)

AS OF: March 18, 2020 / **ORIGINAL SOURCE:** Alberta Government /

WEBLINK: <https://www.alberta.ca/emergency-financial-assistance.aspx>

Emergency Financial Assistance (off-reserve clients/individuals)

Overview: If you are facing an unexpected emergency, you can apply for emergency financial assistance. You can get help when:

- a situation is caused by unforeseeable circumstances beyond your control, and
- it presents a severe health risk, and
- you cannot access other resources or wait until your next pay-cheque or Income Support benefit cheque.

What's covered: This allowance can cover costs for:

- food, clothing, child care, transportation, damage deposit, temporary accommodation, utility arrears (you must repay this money if you need help with utility arrears more than once), eviction payments (you must repay this money if you need help with eviction payments more than once)

Emergency Needs Allowance rates are published on page two of the [Financial Benefits Summary](#) (PDF, 228 KB). Costs that may be covered, but must be repaid include:

- essential home repairs, essential appliance repairs

Proof of need: You must provide proof of need, such as:

- an arrears statement or eviction notice, a utility bill or statement for utility arrears, proof from a reliable source that the item is essential, like an unsafe wiring notice from the fire department

Eligibility: You can apply for the Emergency Needs Allowance if:

- you are a current Income Support client
- you are an Albertan earning an income, but you do not have enough money to cover this one-time, short-term emergency that will last no longer than a month
- you meet the Income Support program eligibility requirements

How to apply: For general information on Income Support benefits, you can call the Alberta Supports Contact Centre:

Hours: 7:30 am to 8:00 pm (Monday to Friday, closed statutory holidays)

Toll free: [1-877-644-9992](tel:1-877-644-9992) Email: css.ascc@gov.ab.ca

Income Support clients: Contact your Income Support worker.

If an emergency occurs outside regular hours, you can call the 24-hour Contact Centre toll free at [1-866-644-5135](tel:1-866-644-5135). See below for the items that can be issued by the 24-hour Income Support Contact Centre.

Albertans: If you aren't receiving Income Support, you can still apply.

Visit your nearest [Alberta Supports or Alberta Works centre](#).

There are some benefits that the 24-hour Income Support Contact Centre can assist with by phone — see details below.

Income Support Contact Centre: If you are facing an emergency need for the following:

- food, medication, clothing, temporary shelter, emergency basic dental

Call the 24-hour Emergency Income Support Contact Centre (available 24/7):

Toll free: [1-866-644-5135](tel:1-866-644-5135) TTY toll free: [1-800-232-7215](tel:1-800-232-7215) (ask to speak to Alberta Supports) Fax: 780-422-9681

Email: hs.iscc@gov.ab.ca (responses may take 1-3 business days)

017. COVID-19 ISC EXTERNAL ADVISORY

CDA/ADA POSITION ON DENTAL SERVICES

AS OF: March 18, 2020 / ORIGINAL SOURCE: Indigenous Services Canada

CDA / ADA Position on Dental Services

Canadian Dental Association

<https://www.cda-adc.ca/en/about/covid-19/covid-19.asp>

Dentists: Given the rapidly evolving COVID-19 situation, dentists licensed to practise in Canada are asked to consult the website and communiqués of the dental regulatory body in their province/territory, as well as the website and communiqués of their provincial/territory dental association.

General Public: Canadians and people in Canada are asked to consult the public website and communiqués of their provincial/territory health authorities.

Alberta Dental Association & College

<https://www.dentalhealthalberta.ca/information-about-novel-coronavirus-covid-19-for-dental-patients-and-practitioners/>

- Effective immediately there is a mandatory suspension of all non-emergency dental treatment and services.
- Dentists may continue to provide emergency treatment as outlined on the website
- At a minimum you must provide telephone access to address patients’ continuity of care.
- Care provided must be compliant with existing ADA&C Infection Prevention and Control (IPC) Standards and guidance or the treatment must cease.

019.COVID-19 ALBERTA HEALTH EXTERNAL ADVISORY NEW APP HELPS ALBERTANS ACCESS HEALTH CARE

AS OF: March 19, 2020 / ORIGINAL SOURCE: Alberta Health

Weblink: <https://www.alberta.ca/release.cfm?xID=69851809AA1B8-AEA8-D268-E2D1E54D6DF119C0>

News Release: New App helps Albertans access health care

New app helps Albertans access health care

March 19, 2020 Media inquiries

Albertans can now meet with Alberta-licensed physicians through their smartphone, thanks to an initiative by TELUS Health.

Babylon by TELUS Health is a service already available in British Columbia via a free downloadable app. The app can serve as a new tool for Albertans to access health-care information and support in response to COVID-19 – from anywhere in the province. Albertans can use the service to check symptoms, book appointments, see a doctor, and get prescriptions and referrals for diagnostic imaging and specialists – all covered by Alberta Health Care.

“Alberta is pleased to partner with TELUS to deliver physician services in a new way. This app is now available and ready for use in Alberta thanks to an alternative relationship plan, and it comes at a time when our health system is actively asking people to self-isolate as a result of the COVID-19 pandemic. Using this app is an alternative to visiting physicians face-to-face when you’re not sure if your symptoms are related to the novel coronavirus or at any other time.”

Tyler Shandro, Minister of Health

“TELUS’ passionate and skilled health-care team is committed to driving improved health outcomes for Albertans by bringing our Babylon by TELUS Health virtual care service to communities and families across the entire province. In partnership with the Government of Alberta, our virtual health-care service bridges time and distance for Albertans in need of expeditiously accessing a physician at no cost from the comfort of home, while simultaneously keeping our amazing health-care professionals protected. It is our sincere hope that we can mitigate the enormous pressure on our health-care system through our technology, human ingenuity and compassion.”

Darren Entwistle, president & CEO, TELUS

The service is being delivered to Albertans through an alternative relationship plan (ARP) between the Alberta government and TELUS. There are currently 61 ARPs in Alberta involving 2,500 doctors.

All physicians providing advice via telephone, email and videoconferencing, including virtual care, can bill for services using the health service code (HSC) 03.01AD. This includes care related to COVID-19 as well as care not related to the virus. The code will remain active as long as the chief medical officer of health determines it should remain active. For more information, physicians can read the updated bulletin on providing telephone advice (Med 221), or email health-pcsp.admin@gov.ab.ca.

Find more information about Babylon by TELUS Health and download the app here.

021. COVID-19 WLFN #459 INTERNAL ADVISORY

WLFN #459 COVID-19 PANDEMIC RESPONSE UPDATE

RELEASE DATE: April 18, 2020 / ORIGINAL SOURCE: Whitefish Lake First Nation #459

WEBSITE: https://www.whitefishlakefirstnation.com/?fbclid=IwAR1HuwU2bAXDmIgZIL4H0ALyYYw6FmIR3VEkkOrDE5baFdEPfG_BX3TH2R4

Whitefish Lake First Nation #459 COVID-19 Pandemic Response Update

Requirements & Expectations

Every member is required to follow the simple instructions from security, authority was given to security to have rules followed to prevent the covid-19 virus from entering our community.

As of April 18 2020:

1. Every member is required to stay in the community 3 days straight. And every 4th day: members can go to the surrounding store(s) to purchase groceries and supplies. (this does not apply to people that need to go medical facilities everyday)
2. All person(s) that are providing a service to the general public are expected to put themselves in a 14 day self isolation: if they came from outside of the community.
 - o If the individual is working alone in an office or vehicle, with no interaction with people. They can continue doing so.
 - o However: those that interact with people on a daily basis; and have a high risk of coming closer than 6 feet; shall self isolate themselves for the minimum expected duration.
3. If individuals insist on leaving for any reason. The individual will be expected to self isolate themselves for a minimum of 14 days with no interaction with the general public.
4. After April 17 2020 council meeting: The council have decided that people need to go and enjoy the warmer weather, and take their evening walks in and around their neighbourhood and ATV rides within the traditional territory. The Curfew will be changed to accommodate the need for fresh air. (ATV rides within traditional territory will not require the 14 day self-isolation requirement.)
5. **New curfew time is: 10pm-7am** residents of the community will be expected to return to their residents or place of dwelling at 10pm sharp.
6. **New Lockdown time is: 12 midnight – 7am.** All residents are expected to be in the community by this hour. Whitefish has been lenient for the past 5 weeks. we must now be stringent this time. As we see the virus is spreading all around us.
7. Whitefish has a prohibited substance and intoxicants bylaw that was drafted and approved in 1993; and is still in effect.
8. All residents are expected to follow the “regulate intoxicant bylaw” as it still is current and in effect.
9. Security can search individuals vehicle that is entering the community to search all suspected vehicles for any prohibited intoxicants: **Especially** during the lockdown hours. Security have the authority to search trunks and hatchbacks and security can confiscate and destroy all intoxicants entering into the community. Especially for the sole purpose of sale or bartering of the intoxicant.

021.2. COVID-19 KTC CFS EXTERNAL ADVISORY

UPDATED KTC CFS OFFICE CLOSURE ANNOUNCEMENT

AS OF: March 23, 2020 / ORIGINAL SOURCE: KTC Child & Family Services (attached original letter for sharing & posting)

Updated KTC Child & Family Services Office Closure Announcement

KTC Child & Family Services

The KTC Child & Family Services office will be closed to assist in preventing the spread of COVID-19 effective March 20, 2020 until further notice. KTC Child & Family Services is an essential service and will continue to provide all services to clients and children in care. Our families, foster & kinship families and children will continue to be fully supported 24/7 during this time and we will be in daily contact.

All employees are equipped to work remotely with Laptops and Phones – please contact your Caseworker directly if needed. KTC Child & Family Services is working to ensure full delivery of services while remaining in line with the recommended health and safety precautionary measures as directed from Alberta Children’s Services and Alberta Health Services. Caseworkers will ask a series of questions when it is mandatory for them to check on your home in person, before entering, as part of our process to keep everyone safe.

The Director, Finance and Admin will come into the office as needed to continue with the finances and administration duties when absolutely required. There will be no public access to the offices. Staff will be available from 9:00am – 4:30pm Monday to Friday via cell phone and email.

KTC Child & Family Services:

KTC Child & Family Services

The KTC Child & Family Services office will be closed to assist in preventing the spread of COVID-19 effective March 20, 2020 until further notice. KTC Child & Family Services is an essential service and will continue to provide all services to clients and children in care. Our families, foster & kinship families and children will continue to be fully supported 24/7 during this time and we will be in daily contact.

All employees are equipped to work remotely with Laptops and Phones – please contact your Caseworker directly if needed. KTC Child & Family Services is working to ensure full delivery of services while remaining in line with the recommended health and safety precautionary measures as directed from Alberta Children's Services and Alberta Health Services. Caseworkers will ask a series of questions when it is mandatory for them to check on your home in person, before entering, as part of our process to keep everyone safe.

The Director, Finance and Admin will come into the office as needed to continue with the finances and administration duties when absolutely required. There will be no public access to the offices. Staff will be available from 9:00am – 4:30pm Monday to Friday via cell phone and email.

KTC Child & Family Services:

General Inquiries and for reporting child protection concerns

022. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY INFO FOR CONSUMERS *NEW

Updated: March 21, 2020 / **ORIGINAL SOURCE:** Alberta Government /

WEBLINK: <https://www.alberta.ca/coronavirus-info-for-albertans.aspx>

Info for consumers *New

We're receiving two types of complaints related to consumer exploitation resulting from COVID-19:

- retail outlet stores raising prices for high-demand products (i.e. toilet paper, hand sanitizer)
- private individuals purchasing mass quantities of supplies and reselling them at an inflated premium

The *Consumer Protection Act* prevents suppliers from grossly raising prices with no explanation beyond what is reasonable for goods that are readily available.

Unlike commercial sales, the *Consumer Protection Act* does not explicitly cover private sales. We urge all Albertans to act with consideration and caution and to find ways to help support each other in this time.

File a consumer complaint

If people see prices for products or services in Alberta skyrocket because of COVID-19, you can report it through our Report-a-Ripoff by calling 1-877-427-4088 or online at <https://www.alberta.ca/file-consumer-complaint.aspx>

Cyber security

Cyber security incidents involving malware and fraudulent activities, including identity theft, are being reported across Alberta in the wake of COVID-19.

- Anyone who receives a call asking for credit card information should hang up immediately and call the non-emergency line for local law enforcement.
- Albertans are encouraged to continue to exercise caution when clicking on links or providing personal information to people and organizations that request that information, unsolicited.

025-P1. COVID-19 WHO EXTERNAL ADVISORY

COVID-19 ADVICE FOR THE PUBLIC: MYTH BUSTERS

Updated: March 20, 2020 / **ORIGINAL SOURCE:** World Health Organization (WHO)

WEBLINK: <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/advice-for-public/myth-busters>

Coronavirus disease (COVID-19) advice for the public: Myth busters (Part 1)

As information is being circulated in social media settings, here are some links and posters to help control misinformation.

COVID-19 virus can be transmitted in areas with hot and humid climates: From the evidence so far, the COVID-19 virus can be transmitted in ALL AREAS, including areas with hot and humid weather. Regardless of climate, adopt protective measures if you live in, or travel to an area reporting COVID-19. The best way to protect yourself against COVID-19 is by frequently cleaning your hands. By doing this you eliminate viruses that may be on your hands and avoid infection that could occur by then touching your eyes, mouth, and nose. – Downloadable graphic: <https://www.who.int/images/default-source/health-topics/coronavirus/myth-busters/52.png>

Cold weather and snow CANNOT kill the new coronavirus: There is no reason to believe that cold weather can kill the new coronavirus or other diseases. The normal human body temperature remains around 36.5°C to 37°C, regardless of the external temperature or weather. The most effective way to protect yourself against the new coronavirus is by frequently cleaning your hands with alcohol-based hand rub or washing them with soap and water. – Downloadable graphic: <https://www.who.int/images/default-source/health-topics/coronavirus/myth-busters/mb-cold-snow.png>

Taking a hot bath does not prevent the new coronavirus disease: Taking a hot bath will not prevent you from catching COVID-19. Your normal body temperature remains around 36.5°C to 37°C, regardless of the temperature of your bath or shower. Actually, taking a hot bath with extremely hot water can be harmful, as it can burn you. The best way to protect yourself against COVID-19 is by frequently cleaning your hands. By doing this you eliminate viruses that may be on your hands and avoid infection that could occur by then touching your eyes, mouth, and nose. – Downloadable graphic: <https://www.who.int/images/default-source/health-topics/coronavirus/myth-busters/mb-hot-bath.png>

The new coronavirus CANNOT be transmitted through mosquito bites: To date there has been no information nor evidence to suggest that the new coronavirus could be transmitted by mosquitoes. The new coronavirus is a respiratory virus which spreads primarily through droplets generated when an infected person coughs or sneezes, or through droplets of saliva or discharge from the nose. To protect yourself, clean your hands frequently with an alcohol-based hand rub or wash them with soap and water. Also, avoid close contact with anyone who is coughing and sneezing. – Downloadable graphic: <https://www.who.int/images/default-source/health-topics/coronavirus/myth-busters/mb-mosquito-bite.png>

Are hand dryers effective in killing the new coronavirus?: No. Hand dryers are not effective in killing the 2019-nCoV. To protect yourself against the new coronavirus, you should frequently clean your hands with an alcohol-based hand rub or wash them with soap and water. Once your hands are cleaned, you should dry them thoroughly by using paper towels or a warm air dryer. – Downloadable graphic: <https://www.who.int/images/default-source/health-topics/coronavirus/myth-busters/mythbusters-27.png>

Can an ultraviolet disinfection lamp kill the new coronavirus?: UV lamps should not be used to sterilize hands or other areas of skin as UV radiation can cause skin irritation. – Downloadable graphic: <https://www.who.int/images/default-source/health-topics/coronavirus/myth-busters/mythbusters-31.png>

How effective are thermal scanners in detecting people infected with the new coronavirus?: Thermal scanners are effective in detecting people who have developed a fever (i.e. have a higher than normal body temperature) because of infection with the new coronavirus. However, they cannot detect people who are infected but are not yet sick with fever. This is because it takes between 2 and 10 days before people who are infected become sick and develop a fever. – Downloadable graphic: <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/advice-for-public/myth-busters>

025-P2. COVID-19 WHO EXTERNAL ADVISORY

COVID-19 ADVICE FOR THE PUBLIC: MYTH BUSTERS

Updated: March 20, 2020 / **ORIGINAL SOURCE:** World Health Organization (WHO)

WEBLINK: <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/advice-for-public/myth-busters>

Coronavirus disease (COVID-19) advice for the public: Myth busters (Part 2)

As information is being circulated in social media settings, here are some links and posters to help control misinformation.

Can spraying alcohol or chlorine all over your body kill the new coronavirus? No. Spraying alcohol or chlorine all over your body will not kill viruses that have already entered your body. Spraying such substances can be harmful to clothes or mucous membranes (i.e. eyes, mouth). Be aware that both alcohol and chlorine can be useful to disinfect surfaces, but they need to be used under appropriate recommendations. – Downloadable graphic: <https://www.who.int/images/default-source/health-topics/coronavirus/myth-busters/mythbusters-33.png>

Do vaccines against pneumonia protect you against the new coronavirus? No. Vaccines against pneumonia, such as pneumococcal vaccine and Haemophilus influenza type B (Hib) vaccine, do not provide protection against the new coronavirus. The virus is so new and different that it needs its own vaccine. Researchers are trying to develop a vaccine against 2019-nCoV, and WHO is supporting their efforts. Although these vaccines are not effective against 2019-nCoV, vaccination against respiratory illnesses is highly recommended to protect your health. – Downloadable graphic: <https://www.who.int/images/default-source/health-topics/coronavirus/myth-busters/11.png>

Can regularly rinsing your nose with saline help prevent infection with the new coronavirus? No. There is no evidence that regularly rinsing the nose with saline has protected people from infection with the new coronavirus. There is some limited evidence that regularly rinsing nose with saline can help people recover more quickly from the common cold. However, regularly rinsing the nose has not been shown to prevent respiratory infections. – Downloadable graphic: <https://www.who.int/images/default-source/health-topics/coronavirus/myth-busters/23.png>

Can eating garlic help prevent infection with the new coronavirus? Garlic is a healthy food that may have some antimicrobial properties. However, there is no evidence from the current outbreak that eating garlic has protected people from the new coronavirus. – Downloadable graphic: <https://www.who.int/images/default-source/health-topics/coronavirus/myth-busters/19.png>

Does the new coronavirus affect older people, or are younger people also susceptible? People of all ages can be infected by the new coronavirus (2019-nCoV). Older people, and people with pre-existing medical conditions (such as asthma, diabetes, heart disease) appear to be more vulnerable to becoming severely ill with the virus. WHO advises people of all ages to take steps to protect themselves from the virus, for example by following good hand hygiene and good respiratory hygiene. – Downloadable graphic: <https://www.who.int/images/default-source/health-topics/coronavirus/myth-busters/mythbuster-2.png>

Are antibiotics effective in preventing and treating the new coronavirus? No, antibiotics do not work against viruses, only bacteria. The new coronavirus (2019-nCoV) is a virus and, therefore, antibiotics should not be used as a means of prevention or treatment. However, if you are hospitalized for the 2019-nCoV, you may receive antibiotics because bacterial co-infection is possible. Downloadable graphic – <https://www.who.int/images/default-source/health-topics/coronavirus/myth-busters/mythbuster-3.png>

Are there any specific medicines to prevent or treat the new coronavirus? To date, there is no specific medicine recommended to prevent or treat the new coronavirus (2019-nCoV). However, those infected with the virus should receive appropriate care to relieve and treat symptoms, and those with severe illness should receive optimized supportive care. Some specific treatments are under investigation, and will be tested through clinical trials. WHO is helping to accelerate research and development efforts with a range of partners. – Downloadable graphic: <https://www.who.int/images/default-source/health-topics/coronavirus/myth-busters/mythbuster-4.png>

026. COVID-19 SLAD EXTERNAL ADVISORY SLAD NOTICE OF BUSINESS CONTINUITY

Updated: March 22, 2020 / ORIGINAL SOURCE: Slave Lake Apple Drugs (SLAD)

SLAD (Slave Lake Apple Drugs) notice of business continuity

SLAVE LAKE APPLE DRUGS

108 – 6th Ave NW, Slave Lake, AB, T0G 2A1

Tel 780 849 9443 Fax 780 849 9457

March 22, 2020

In order to support efforts to minimize opportunities for the spread of COVID-19, while protecting the health of the community and our staff members, effective immediately Slave Lake Apple Drugs Pharmacy will have:

RESTRICTED ACCESS TO PERSONS COMING INSIDE THE PHARMACY

Please call the pharmacy (780-849-9443) to request prescription refills or extensions or have your provider fax the prescription to us. Please call when you arrive to pick-up and a staff member will bring your prescription to a designated table just inside of the door where you may pick it up; medication information/counselling will be provided over the phone whenever possible.

Please be kind to our amazing staff as we all navigate these changes to continue to serve our patients in the safest manner possible.

Note that we are strictly adhering to Alberta Health's request to limit prescription fills to a 30 day supply at this time. Alberta Blue Cross Senior's plan has adjusted the copay so that this does not increase the senior's out of pocket expense.

We are working towards having a prescription delivery service running within this coming week.

Our team is aware that most of our patients' health needs will be unrelated to the outbreak and are reviewing updates from Alberta Health and our professional regulatory bodies on a daily basis to continue to best meet those needs safely.

Our hours of operation will not change at this time.

027. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY COVID-19 SUPPORTS FOR ALBERTANS

AS OF: March 24, 2020 / ORIGINAL SOURCE: Alberta Government /

WEBLINK: <https://www.alberta.ca/covid-19-supports-for-albertans.aspx>

COVID-19 Supports for Albertans

Overview

The Alberta government will provide immediate financial relief to Alberta’s families and vulnerable populations.

Albertans should be focused on their health and not worry about whether they can pay their bills so we have put a number of options in place for those struggling financially.

Emergency isolation support

- This will be a temporary program for working adult Albertans who must self-isolate because they meet the Government of Alberta’s published criteria for [self-isolation](#), including persons who are the sole care-giver for a dependent who must self-isolate because they meet the public health criteria, and who will not have another source of pay or compensation while they are self-isolated.
- A one-time payment of \$1,146 will be distributed to bridge the gap until the federal emergency payments begin in April.
- We expect the program to be available through a simple online application this week and that funds will be deposited in the accounts of eligible recipients beginning at that time.

More information on how to apply will be available soon.

Utility payment deferral

- Residential customers can defer electricity and natural gas bill payments for the next 90 days to ensure no one will be cut off, regardless of the service provider.
- This program is available to Albertans who are experiencing financial hardship as a direct result of COVID-19. For example, those who have lost their employment or had to leave work to take care of an ill family member.
- Call your utility provider directly to arrange for a 90-day deferral on all payments.

Learn more about the [90-day utility payment deferral](#) (PDF, 128 KB) Link: <https://www.alberta.ca/assets/documents/covid19-90-day-utility-deferral.pdf>

Student loans repayment deferral

We are implementing a six-month, interest free, moratorium on Alberta student loan payments for all Albertans in the process of repaying these loans.

- Alberta Student Loan repayments will be paused for 6 months, beginning March 30, 2020.
- Interest will not accrue during this period. This mirrors the approach of the Canada Student Loans Program.
- Students do not need to apply for the repayment pause.
- Borrowers may continue making payments during this period if they choose and this will not affect their eligibility to receive the benefit.

News

028. COVID-19 AHS EXTERNAL ADVISORY INFANT FEEDING AND COVID-19

SENT OUT: March 24, 2020 / ORIGINAL SOURCE: Alberta Health Services (

WEBLINK: <https://www.albertahealthservices.ca/topics/Page17000.aspx>

Infant Feeding and COVID-19

Infant Feeding and COVID-19

What you need to know

COVID-19 can spread from person-to-person through small droplets when a person with COVID-19 coughs or exhales.

- During most illnesses, breastfeeding is the safest way to feed a baby.
- If you are sick, discuss breastfeeding with your healthcare provider.
- If you are not sick, continue breastfeeding.
- Infants who are breastfed are at decreased risk of respiratory illness.
- If you are using infant formula be sure to have at least a 14-day supply of formula and any supplies needed to sterilize the equipment.

If you have symptoms such as fever, cough and difficulty breathing and have travelled outside Canada, or have been exposed to someone who has COVID-19, stay home and call Health Link 811

If you need health advice or information call Health Link 24/7 by dialing 811 or visit [MyHealth.Alberta.ca](https://myhealth.alberta.ca).

How to care for a COVID-19 patient at home

How to care for a COVID-19 patient at home

If at all possible, try to ensure that the ill person has a designated bedroom and bathroom.

Visitors should not come to the home.

Maintain social distance from the ill individual, as much as possible.

Do not allow ill person to prepare meals for others, and ensure that that ill person uses separate preparation area or at least prepares meals at a different time, washing all surfaces after.

Avoid sharing household items like dishes, drinking glasses, cups, eating utensils, towels and pillows.

Wash your hands frequently, with soap and warm water.

Advise loved ones to cover their coughs and sneezes with their arm, not their hand, and to practice good respiratory etiquette at all times.

Monitor yourself for symptoms and visit ahs.ca/covid to take a self-assessment to determine whether you should be tested for COVID-19.

ahs.ca/covid

Healthy Albertans.

TEXT4 HOPE

SENT OUT: March 24, 2020 / **ORIGINAL SOURCE:** Alberta Health Services

WEBLINK: <https://www.albertahealthservices.ca/topics/Page17019.aspx>

Text4Hope – Supporting Mental Health & Wellness in a Time of Stress & Isolation

Feeling stress, anxiety and depression due to the COVID-19 crisis? We can help.

The Mental Health Foundation, in partnership with Calgary Health Trust, the University Hospital Foundation, the Royal Alexandra Hospital Foundation, and the Alberta Children’s Hospital Foundation, is supporting a new Alberta Health Services program Text4Hope – a free service providing three months of daily Cognitive Behavioural Therapy (CBT)–based text messages written by mental health therapists.

An Alberta-based innovation, Text4Hope is an evidence-based tool that helps people identify and adjust the negative thoughts, feelings and behaviours a pandemic might be expected to provoke.

Through a set of daily messages, people receive advice and encouragement helpful in developing healthy personal coping skills and resiliency.

Community members simply subscribe to receive ongoing supportive content. There is no cost.

How to Connect

Text **COVID19HOPE** to **393939** to subscribe.

The program provides one-way communication and does not replace other mental health therapies and supports. It is a helpful option for people in self-isolation who can’t access face-to-face services, as well as those in remote locations.

All mental health support lines remain open. For details on what is available in your health region, visit this AHS resource. Link: <https://www.albertahealthservices.ca/amh/amh.aspx>

031. COVID-19 AHS EXTERNAL ADVISORY

HEALTHY TOGETHER – FINDING A NEW NORMAL

DATE POSTED: March 25, 2020 / **ORIGINAL SOURCE:** Alberta Health Services

WEBLINK: <https://www.albertahealthservices.ca/news/Page15439.aspx>

Healthy Together

Welcome to Healthy Together, your guide to family and home life during COVID-19. Each weekday, we'll post a new story about how families can be healthy, active and safe in these changing times.

To suggest a story or share your experiences in an upcoming story, contact: healthy.together@ahs.ca.

Finding a New Normal - Healthy Together

Life in Alberta has been turned upside down with the COVID-19 outbreak. Home has always been where the heart is. Now it's where we spend more and more time, working, learning, playing, eating and wondering when things will get back to normal. With the answer unclear, your family may need to find a new normal for the coming weeks. These tips can help with day-to-day life. For information about COVID-19, visit [Information for Albertans](#).

Find a new routine

Schools, daycares, rec centres, many public facilities and businesses are closing. Work life is changing by the minute. Countless moms and dads are juggling to keep up and keep their children safe. Nearly every family in Alberta has had their daily routine disrupted. Planning and following a new routine can lend a sense of order to these topsy-turvy times, especially for children. "Routines can help you and children feel more comfortable during times of uncertainty," says Farah Bandali, AHS's director of Healthy Children and Families with Healthy Living. "Day-to-day routines add structure to family life and reflect what's important to your family. They're also a way to let your kids know what to expect during the day." She adds: "Your family can make new routines for weekdays and weekends together. See what works for everyone. Be flexible—give and take a little and let everyone have a voice. You can change things around as you need. And you don't have to follow routines to the minute." Wake up times, bedtimes, meals and snacks, play, walks and quiet time. All are examples of what you can weave into your family's new routine. See the sample routine below to help you get started. See a sample routine at <https://www.albertahealthservices.ca/news/features/2020/Page15441.aspx>

Bring on the laughter

Watch a funny movie. Tell a corny joke (see child-friendly example in sidebar). Have a staring contest. Tickle one another. Tell a goofy story. Make laughter a part of your day. Science America says "laughter and appreciation of humour are vital components of adaptive social, emotional and cognitive function ... Laughter is, after all, a communal activity which promotes bonding, diffuses potential conflict and eases stress and anxiety." That's a schmancy way of saying laughter brings people together and helps us think. It also helps us express our feelings, can turn a tense moment into a light moment and is just plain good for us.

Remember the basics

In tough times, we can lose track of the basics of healthy living. Here's a friendly reminder: eat healthy foods as much as possible. Stay connected with other family members, friends and co-workers while maintaining social (physical) distancing. Get a good night's sleep. Go outside for a walk or kick a soccer ball around in your backyard or stomp around in the snow. Limit alcohol and recreational drugs. Most of all, reach out for help if you need it. Alberta Health Services, the Government of Alberta, your local municipality and hundreds of community groups have all kinds of support and assistance for Albertans. These are extraordinary times and looking after yourself and your family are more important than ever.

032. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY ENFORCING MEASURES TO STOP SPREAD OF COVID-19

AS OF: March 25, 2020 / ORIGINAL SOURCE: Alberta Government Media Inquiries

WEBLINK: <https://www.alberta.ca/release.cfm?xID=69918C41565BC-002C-269C-638E958E5912C37B>

Enforcing measures to stop spread of COVID-19

To protect the health and safety of Albertans, law enforcement agencies have been granted full authority to enforce public health orders and issue fines. In addition, it is now mandatory for travellers returning from outside of Canada to self-isolate. This legal requirement also applies to close contacts of confirmed COVID-19 cases, as well as to any individual with symptoms, such as a fever, cough, sore throat or runny nose.

"We must do everything we can to protect Albertans through this pandemic. While the vast majority of Albertans are doing their part to flatten the curve by self-isolating, practising physical distancing or helping those who are self-isolating, some are not. Self-isolation orders are not suggestions or guidelines – they are now the law and they must be followed. Anyone putting their families, their neighbours, or other Albertans at risk will face consequences." Jason Kenney, Premier

Through amendments to the Procedures Regulation under the Provincial Offences Procedures Act, community peace officers, in addition to police, will be able to issue tickets to enforce COVID-19 public health orders. Fines now administered through tickets for violating an order have increased from up to \$100 per day to a prescribed fine of \$1,000 per occurrence. Courts will also have increased powers to administer fines of up to \$100,000 for a first offence and up to \$500,000 for a subsequent offence for more serious violations. These new fines will be in force over the coming days.

"The chief medical officer of health has the full cooperation of community peace officers and local policing to ensure Albertans comply with orders. Albertans' health is and will always be our top priority, and we will use all necessary enforcement measures to ensure Albertans take this situation seriously by self-isolating and limiting mass gatherings." Doug Schweitzer, Minister of Justice and Solicitor General

Public health orders subject to fines for violation include:

- Any individual who has travelled outside of Canada must go into mandatory self-isolation for 14 days from their return, plus an additional 10 days from the onset of any symptoms should they occur, whichever is longer.
- Any individual who exhibits COVID-19 symptoms must self-isolate for a minimum of 10 days from the start of their symptoms, or until the symptoms resolve, whichever is longer. Symptoms include cough, fever, shortness of breath, runny nose, or a sore throat.
- Any individual who has been identified by as a close contact of a person(s) with COVID-19 must go into mandatory self-isolation for 14 days from the date of last having been exposed to COVID-19, plus an additional 10 days from the onset of any symptoms should they occur, whichever is longer.
- Mass gatherings must be limited to no more than 50 attendees.
- Access to public recreational facilities, private entertainment facilities, bars and nightclubs is prohibited.
- Visitation to long-term care and other continuing care facilities is limited to essential visitors only.

The Government of Alberta and Alberta Health Services are working with local enforcement agencies to manage complaints, which can be submitted online. Exemptions will continue to be assessed on a case-by-case basis by public health officials.

033. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY GOVERNMENT SERVICE CHANGES – TEMPORARY OFFICE CLOSURES

AS OF: March 23, 2020 / ORIGINAL SOURCE: Alberta Government

WEBLINK: <https://www.alberta.ca/covid-19-temporary-office-closures.aspx>

Government Service Changes – Temporary Office Closures

Some Alberta government office locations have temporarily closed to the public. To find out how to access affected government services, visit the program's web page or call Alberta Connect at 310-4455 from 8 am to 8 pm, 7 days a week.

Education and training

- **Apprenticeship and Industry Training Office** – Temporarily closed. Visit [Tradesecrets](#) for the most current apprenticeship training information.

Business and registries

- **Land Titles** – Office temporarily closed. Find out [how to get help](#).
- **Vital Statistics and Corporate Registry** – Office temporarily closed. Find out [how to get help](#).

Energy and environment

- **Air Photo Library** – Office temporarily closed. Find out [how to order by email](#).
- **Alberta Parks** – Sites remain accessible but facilities are closed. Find out [how parks are affected](#).
- **Fish and Wildlife Enforcement Branches** – Many enforcement offices are temporarily closed. For information, [contact offices directly](#).

Family and social supports

- **Alberta Supports** – In-person services suspended. If you are receiving benefits or services and need assistance, find out [how to get help](#).

Government

- **Government Surplus Sales** – Locations temporarily closed. Find out [how to pick up online auction items](#).
- **Official documents** – Front counter is temporarily closed. For information, visit [document authentication for other jurisdictions and countries](#).

Housing and community

- **Residential Tenancy Dispute Resolution Service (RTDRS)** – Office temporarily closed. Find out how to [get help with applications and hearings](#).

Courts

- **Alberta Court of Appeal** – Limiting attendance to necessary parties. [Find out more](#).
- **Court of Queen's Bench** – Hearings limited to emergency or urgent matters only. [Find out more](#).
- **Provincial Court of Alberta** – Limiting all regular operations, including Traffic Court. [Find out more](#).
- **Traffic Court (Provincial Court of Alberta)** – All locations closed. Find out [how to get help](#).

Other services

- **Adult correctional and remand centres** – Visits suspended. [Find out more](#).
- **Alberta Law Libraries** – Public access is suspended until further notice. [Find out more](#).
- **Consumer Investigations and Programs** – Office temporarily closed. Find out about consumer protection [concerns related to COVID-19](#).
- **Legal Aid Alberta** – Accepting only applications for urgent matters. [Find out more](#).
- **Young Offender Centres** – Visits suspended. [Find out more](#).

Museums and historic sites

- **Edmonton Federal Building** – Public access is suspended until further notice. [Find out more](#).
- **Government House** – Tours and public access are suspended until further notice. [Find out more](#).
- **Historic sites and museums** – All museums, historic sites and interpretive centres are temporarily closed. [Find out more](#).
- **Legislative Assembly Visitor Centre** – Tours and public access are suspended until further notice. [Find out more](#).
- **Provincial Archives of Alberta** – Public access is suspended until further notice. Find out [how to get help](#).

novel Coronavirus (COVID-19) FAQs for Public

Issued by the AHS Emergency Coordination Centre (ECC)

REVISED March 25, 2020

Please note: every effort is made to keep this FAQ current; however, for the very most current information on the situation in Alberta, please visit www.alberta.ca/covid19.

If you are a healthcare worker in Alberta, please visit www.ahs.ca/covid.

What's happening in Alberta?

Alberta continues to see cases of COVID-19. For current case count, visit www.alberta.ca/covid19.

Additional information for travelers, schools, daycares, employers and all Albertans, can also be found at www.alberta.ca/covid19.

What is novel coronavirus (COVID-19)?

- Coronaviruses are a large family of viruses.
- Some coronaviruses cause respiratory illness in people, ranging from common colds to severe pneumonias. Others cause illness in animals only.
- Rarely, animal coronaviruses can infect people, and more rarely, these can spread from person to person through close contact.
- COVID-19 is a new strains of the virus that had not been previously identified in humans.

What are the symptoms of COVID-19?

- Symptoms for COVID-19 are similar to those for influenza or other respiratory illnesses. The most common symptoms include fever and cough but other symptoms may include:
 - sore throat
 - runny nose
 - nasal congestion
 - shortness of breath
 - difficulty breathing
- Most people (about 80%) recover from this disease without needing special treatment.
- However, it can cause serious illness. Those who are older, and those with other medical problems are more likely to develop serious illness.
- There is a risk of death in severe cases.
- Older persons and persons with pre-existing medical conditions (such as high blood pressure, heart disease, lung disease, cancer or diabetes) appear to develop serious illness more often than others.

How is COVID-19 spread from person-to-person?

- COVID-19 is spread mainly by coughing, sneezing or direct contact with a sick person or with surfaces they have recently touched.
- It is not an airborne illness.

Should I be tested for COVID-19?

Visit www.ahs.ca/covid and complete the online self-assessment tool to determine if you should receive testing for COVID-19.

What should I do if I have symptoms and think I have COVID-19?

If you are sick or think you may have been exposed to COVID-19:

- You MUST [self-isolate](#) and visit www.ahs.ca/covid and complete the online self-assessment tool to determine if you need testing for COVID-19.
- Please do not visit a hospital, physician's office, lab or healthcare facility without consulting Health Link (811) first.
- If your symptoms worsen, call 811. We are experiencing heavy call volumes and will get to your call as quickly as we can.
- Call 911 if you are seriously ill and need immediate medical attention. Inform them that you may have COVID-19.

How can I protect myself and my family from COVID-19?

- To help protect against all respiratory illnesses, including the flu and COVID-19, you should:
 - Stay home. Now is the time to stay home and avoid social and other outings that are not essential.
 - If you must leave your home, make sure you practice proper [social distancing](#).
 - Wash your hands often and well. Refer to hand-washing guidance here: <https://www.albertahealthservices.ca/assets/healthinfo/ipc/if-hp-ipc-flu-handwash-how-to.pdf>
 - Avoid touching your face, nose, or mouth with unwashed hands.
 - Avoid close contact with people who are sick.
 - Clean and disinfect surfaces that are frequently touched.
 - Stay at home and away from others if you are feeling ill.
 - When sick, cover your cough and sneezes and then wash your hands. Refer to respiratory etiquette guidance here: <https://www.albertahealthservices.ca/assets/healthinfo/ipc/if-hp-ipc-cover-cough.pdf>

Did the criteria for COVID-19 testing change?

A new approach to testing for COVID-19 was implemented in Alberta on March 23, and prioritizes groups at highest risk of local exposure, as well as at-risk populations.

As of March 23, travellers who returned to Alberta from outside of Canada after March 12 and have mild symptoms are no longer being tested for COVID-19. Instead, the same advice applied to all Albertans applies to them - self-isolate at home and away from others.

This change is effective going forward, so anyone who had already been told by Health Link that they'll be tested will still get tested.

Testing will be prioritized for the following individuals, if they are **symptomatic**:

- people who are hospitalized with respiratory illness;
- residents of continuing care and other similar facilities;
- healthcare workers with respiratory symptoms (this testing will begin later this week).

Why did AHS change the testing criteria?

Changing our testing protocols allows us to focus Alberta's testing capacity on those most at risk. This is consistent with the approach happening across Canada.

It enables us to strategically use our testing resources. Our new approach reflects the fact that the most important thing anyone can do if they have mild symptoms isn't to get tested - it's to stay home and self-isolate.

I am worried about catching COVID-19. Should I wear a medical mask?

- Masks can be very important in certain situations. When sick, wearing a mask helps prevent us from passing illnesses on to other people. This is why we ask people who have a cough or respiratory symptoms to wash their hands and wear a mask when visiting an emergency department or clinic.
- If you are sick, wearing a mask helps prevent passing the illness on to other people.
- If you are healthy, medical masks are not recommended as they don't provide full protection and can create a false sense of security.
- Frequent and thorough hand washing, covering your mouth when coughing or sneezing and avoiding touching your face, nose or mouth remain the best evidence-based ways to prevent the spread of respiratory illness.
- N95 masks (respirator masks) require special fitting and testing in order to be effective. We strongly recommend against members of the public using N95 masks, as they can make it more difficult to breathe for some individuals, especially those with chronic breathing problems. They provide little, if any, benefit to members of the public, beyond that provided by a procedure mask.

I feel sick and I can't get through to Health Link, what do I do?

- Health Link 811 continues to experience very high volume due to individuals seeking advice on COVID-19. We thank you for your patience.
- We have developed a simple online assessment tool to help you decide whether you need to call 811 to be tested for COVID-19. Visit the online tool at ahs.ca/covid.
- You can also:
 - Call your primary health provider for advice.
 - Call 911 if you are seriously ill and need immediate medical attention (such as shortness of breath) and inform them that you may have COVID-19.
- Even if the assessment tool indicates that COVID-19 testing is not recommended, please continue to stay at home and self-isolate for at least 10 days after your symptoms started and until you no longer have symptoms.

Who is most at risk for becoming very sick with COVID-19?

- Although most people who develop COVID-19 will experience mild illness, some individuals are more likely to become seriously ill. Older adults and people with medical conditions like high blood pressure, diabetes, heart disease, and lung disease appear to be at higher risk of becoming very sick.

What are your recommendations for people who are immune compromised, have asthma or at high risk of severe illness for other medical reasons?

- Stay at home, avoiding public places and social interaction.
- If you must go out in public, practice proper [social distancing](#).
- For essential outings, at very least reschedule your visit for non-peak periods.
- Wash your hands often with soap and warm water.
- Avoid touching your face, nose, or mouth.
- Do not have contact with people who are sick.
- Clean and disinfect surfaces that are frequently touched.
- Call 911 if you become seriously ill and need immediate medical attention. Inform them that you may have COVID-19.

When should I go to the hospital?

- Call 911 if you are seriously ill and need immediate medical attention. Inform them that you may have COVID-19.
- If you do not need urgent medical attention and you think you may have COVID-19, you can instead call 811 for health assessment and referral.

My loved one has or is being tested for COVID-19 and we live in the same house. How can I take care of them and not get sick myself?

- If at all possible, try to ensure that the ill person has a designated bedroom and bathroom.
- Maintain social distance from the ill individual, as much as possible.
- Visitors should not come to the home.
- Do not allow ill person to prepare meals for others, and ensure that the ill person uses separate preparation area or at least prepares meals at a different time, washing all surfaces after.
- Avoid sharing household items like dishes, drinking glasses, cups, eating utensils, towels and pillows.
- Wash your hands frequently, with soap and warm water.
- Frequently sanitize all surfaces, particular hand rails, door knobs, sink taps, toilets, and other items of frequent touching.
- Advise loved one to cover their coughs and sneezes with their arm, not their hand, and to practice good respiratory etiquette at all times.
- Monitor yourself for symptoms and call Health Link for assessment and advice if you have symptoms yourself.

What does self-isolation mean?

- Self-isolation means avoiding situations where you could infect other people. This means all situations where you may come in contact with others, such as social gatherings, work, school, child care, athletic events, university, faith-based gatherings, healthcare facilities, grocery stores, restaurants, shopping malls, and all public gatherings.
- You should, (where possible) not use public transportation including buses, taxis, or ride sharing.
- As much as possible, you should limit contact with people.
- You should avoid having visitors to your home, but it is okay for friends, family or delivery drivers to drop off food on the doorstep.
- You can also use delivery or pick up services for errands such as grocery shopping.
- Avoid sharing household items such as dishes, drinking glasses, cups, eating utensils, towels, pillows, or other items with other people in your home. After using these items, you should wash them thoroughly with soap and water, place in the dishwasher for cleaning, or wash in the washing machine.
- Wash your hands often with soap and water and regularly clean and disinfect frequently touched and shared surfaces such as doorknobs and counters.
- If you need to leave your home for an urgent errand, such as picking up essential medication, as a precaution to reduce risk of spread, you should wear a surgical mask while you are out.
- During this time, it is important that you monitor your health for symptoms like fever or cough.
- If you do develop symptoms, you can complete the online assessment tool for additional advice or call Health Link at 811.

How is COVID-19 treated?

- Although there are no specific medications for COVID-19 at this time, the Alberta health care system is able to provide effective care for people who develop a serious COVID-19 illness.

Are there vaccines to prevent COVID-19?

- Not yet. Much research is currently underway to develop a vaccine, but it could take some time before a vaccine is developed and approved for use in Canada.

I am not having symptoms, but I'm concerned about COVID-19 and want to talk to someone. Should I call Health Link?

- Please visit the following websites if you have further general questions about what COVID-19 is, how it is spread, or how many cases there are in Alberta and the world at present. You can call Health Link 811 if you have additional questions about what you need to do to protect yourself and your family against getting a COVID-19 infection.
 - Alberta Health: alberta.ca/covid19
 - Public Health Agency of Canada: canada.ca
 - World Health Organization: who.int

TRAVEL:

Should I change or cancel my travel plans outside of Canada?

- Yes. Travel outside Canada is **not recommended** at this time.
 - Public Health Agency of Canada's Travel Health Advisories: <https://travel.gc.ca/travelling/health-safety/travel-health-notices>.
 - World Health Organization's bulletins: <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/travel-advice>.

What should I do if I have recently returned from travelling outside of Canada?

- ALL travellers who returned to Alberta from outside Canada in the last 14 days **MUST self-isolate** immediately for 14 days after the date of return and monitor for **symptoms**. Complete the online self-assessment tool at ahs.ca/covid to determine if you should receive testing for COVID-19.
- **If you have symptoms:**
 - Anyone who has symptoms, including cough, fever or sore throat, must also self-isolate for 10 days after the first onset of symptoms, or until their symptoms resolve, whichever is longer.
 - If you develop symptoms – cough, sore throat, fever or difficulty breathing – stay home and complete the online COVID-19 self-assessment. Do not go to the ER or doctor's office.
 - Please do not visit a hospital, physician's office, lab or healthcare facility without consulting Health Link (811) first.
 - If your symptoms worsen, call 811. We are experiencing heavy call volumes and will get to your call as quickly as we can.
 - Call 911 if you are seriously ill and need immediate medical attention. Inform them that you may have COVID-19.

I was on a flight where there was someone who looked sick. Am I at risk?

- Returning travellers on international flights may be screened at the airport: <https://www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection/canadas-reponse.html>
- If any cases are diagnosed among travellers to Alberta, Public Health will be following up with anyone who was exposed.

Flights with confirmed cases

As more flights confirm passengers with COVID-19, Albertans should monitor their air travel even if it was limited to within Canada. Flights that have confirmed cases and the affected seats is [posted online as information is confirmed](#).

- Passengers in affected seats are considered close contacts and are at risk of exposure. Please [self-isolate](#) for 14 days and monitor for symptoms.
- Other passengers should monitor for symptoms, but are not required to self-isolate unless they returned to Canada after March 12.

If you recently returned from a flight:

- [check the list of affected flights for updates](#) (updated March 22, 1:00 pm)
- [self-isolate](#) for 14 days if your seat was affected or you returned to Canada after March 12
- monitor for symptoms such as cough, fever, fatigue or difficulty breathing
- If, at any time in your 14 day period of self-isolation, you develop symptoms of illness, you are required to stay home for 10 days from date of symptom onset, or until symptoms have cleared, whichever is longer. This may extend your period of self-isolation to longer than 14 days.
- [take the COVID-19 self-assessment](#) to determine next steps and find out if testing is required

I live outside of Canada but have a trip planned to Alberta this week/month. Should I still come?

- Travel should be limited as much as possible. Essential travel only should proceed.
- Please follow travel guidance from Public Health Agency of Canada: <https://www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection/latest-travel-health-advice.html>.
- If you do not currently have symptoms of COVID-19 and are planning to come to Alberta from outside Canada, you will be asked to monitor yourself for the development of symptoms of COVID-19.

If you develop symptoms, you will need to isolate yourself immediately and call Health Link 811.

EVENTS and OTHER RESTRICTIONS

What restrictions are in place, related to public spaces?

To help prevent the spread of COVID-19, Alberta has implemented the following public health restrictions:

- Student attendance at schools is prohibited.
- In-person classes at post-secondary institutions are cancelled until further notice. Campuses remain open.
 - Government is working with post-secondary institutions to ensure students are not prevented from being eligible for admission to post-secondary studies for the upcoming school year.
- All licensed child care facilities, out-of-school care programs and preschool programs are closed with the exception of a select few who will be providing child care to essential workers.

- All long-term care and other continuing care facilities are advised to limit visitation to essential visitors only. See Information for [People Visiting Patients](#) for more information.
- Places of worship are no longer exempt from restrictions on mass gatherings.
- To limit the amount of time Albertans are spending in large crowds and crowded spaces, all Albertans are prohibited from attending public recreational facilities and private entertainment facilities, including gyms, swimming pools, arenas, science centres, museums, art galleries, community centres, children's play centres, casinos, racing entertainment centres, and bingo halls.
- Sit-down restaurants, cafés, coffee shops, food courts and other food-serving facilities, including those with a minors-allowed liquor license, are limited to 50 per cent capacity to a maximum of 50 people.
- Take-out, delivery or drive-through service is permitted. Licensed facilities will also be permitted to deliver liquor.
- Until further notice, all Albertans are restricted from attending bars and nightclubs, where minors are prohibited by law.
- Grocery stores, shopping centres, health-care facilities, airports, the legislature and other essential services are not included in this mandatory closure.
- Likewise, at this time not-for-profit community kitchens, soup kitchens and religious kitchens are exempt, but sanitization practices are expected to be in place and support will be in place for this practice.

Effective March 25, the province has instituted new enforcement measures for those not respecting public health restrictions. Find more information on [Alberta.ca](#).

What restrictions are in place for events?

Events with more than 50 attendees are cancelled.

- This includes large sporting events, conferences and community events, as well as worship gatherings and family events – including weddings and funerals.

Find more information on [Alberta.ca/covid19](#)

Is AHS prepared to meet the increased demands on health care in the event of a local outbreak of COVID-19?

- Yes – AHS, in collaboration with Alberta Health and the Alberta Emergency Management Agency, is actively responding to this pandemic, and worked proactively to be prepared.
- We are focused on controlling the spread of disease, reducing illness and death, minimizing disruptions to the daily life of Albertans, helping to minimize economic impacts and support an efficient and effective use of resources during response and recovery.

035. COVID-19 AHS EXTERNAL ADVISORY

ADVICE FOR PEOPLE TESTED FOR COVID-19

POSTED: March 27, 2020 / ORIGINAL SOURCE: Alberta Health Services /

WEBLINK: <https://www.albertahealthservices.ca/topics/Page17034.aspx>

Advice for People Tested for novel coronavirus (COVID-19)

If You Receive Notice of Positive Test Results for COVID-19

- If your test results for COVID-19 are positive, you MUST continue to [self-isolate](#).
 - You will be contacted by AHS Public Health to advise on your self-isolation period. Please remain in self-isolation.
 - Self-isolation can help prevent the spread of COVID-19 by lowering the chance the virus could spread to others.
 - Self-isolation means to avoid situations where you could infect other people such as through social gatherings, work, school/university, child care, athletic events, faith-based gatherings, health care facilities and public transportation.
 - In addition wash your hands often and thoroughly, cover your cough and sneezes, avoid sharing household items and clean and disinfect frequently touched and shared surfaces.
 - For guidance on how to care for yourself or someone in your house with COVID-19, visit [How to Care for a COVID-19 Patient at Home](#).
 - ALL health care workers must be assessed before returning to work. If you are a healthcare worker, please view [COVID-19 Return to Work Guide for AHS Healthcare Workers](#) .

If You Receive Notice of Negative Test Results for COVID-19

- If your test results for COVID-19 are negative;
 - You can resume normal activities only if it has been **10 days or more** since your symptoms started, or your symptoms have now resolved, whichever is longer.
 - If it has been **less than 10 days** since your symptoms started, continue to self-isolate until it has been 10 days or more since your symptoms started, and continue to follow good respiratory etiquette, good hand hygiene and self-monitor for symptoms of COVID-19*. If you develop any of these symptoms contact Health Link at 811.
 - ALL healthcare workers must be assessed before returning to work. If you are a healthcare worker, please view [COVID-19 Return to Work Guide for AHS Healthcare Workers](#).

*Symptoms of COVID-19 include:

- Fever
- Cough
- Runny nose
- Shortness of breath or difficulty breathing
- Sore throat

037. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY INFO FOR RENTERS

UPDATED: March 27, 2020 at 3:45 pm / **ORIGINAL SOURCE:** Alberta Government

WEBLINK: <https://www.alberta.ca/coronavirus-info-for-albertans.aspx#p22780s6>

New Mass Gathering Restrictions

New protections are in place for residential and mobile homes site tenants facing financial hardship due to COVID-19:

- Tenants cannot be evicted for non-payment of rent and/or utilities before May 1, 2020.
- Rents on residential properties or mobile home sites will not increase while Alberta’s State of Public Health Emergency remains in effect.
- Late fees cannot be applied to late rent payments until June 30 and cannot be collected retroactively for this time.
- Landlords and tenants need to work together to develop payment plans while COVID-19 is being managed.
- Landlords can still file applications and receive orders for possession if the reason for the eviction is unrelated to rent and/or utility payments, or if a tenant refused to negotiate or comply with a payment plan.

038. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY PERSONAL SERVICE RESTRICTIONS

UPDATED: March 27, 2020 at 3:45 pm / **ORIGINAL SOURCE:** Alberta Government

WEBLINK: <https://www.alberta.ca/restrictions-on-gatherings-and-businesses.aspx>

Personal Service Restrictions

Albertans are prohibited from accessing close contact personal services, including personal services facilities, cosmetic enhancement services, wellness studios and clinics, non-emergency and non-critical health services.

Personal services facilities and cosmetic enhancement services include:

- esthetics
- manicure
- pedicure
- body waxing
- make-up
- body, nose and ear piercing
- tattoos
- artificial tanning and spray tanning
- hairstyling
- barbering
- facial treatments
- eyebrow and eyelash treatments
- laser hair and tattoo removal
- cosmetic skin and body treatments

Wellness studios and clinics include:

- floatation tanks
- colonic irrigation
- massage
- reflexology

Non-emergency and non-critical health services provided by regulated health professionals or registered professionals include any non-emergency or non-urgent:

- dentistry
- physiotherapy
- massage
- foot care and podiatry
- acupuncture and acupressure
- chiropractic services
- naturopathy

Enforcement

If you violate this public health order and proceed to hold an event with more than 15 attendees, you may be subject to a fine. You can submit a complaint to AHS public health inspectors if you are concerned an establishment is not following public health orders.

Submit a complaint to: <https://ephisahs.microsoftcrmporthals.com/create-case/>

041. COVID-19 PUBLIC HEALTH AGENCY OF
CANADA EXTERNAL ADVISORY
HOW TO CARE FOR A CHILD WITH COVID-19 AT HOME

AS OF: March 29, 2020 / **ORIGINAL SOURCE:** Public Health Agency of Canada / **WEBLINK:** <https://www.canada.ca/en/public-health/services/publications/diseases-conditions/how-to-care-for-child-with-covid-19-at-home-advice-for-caregivers.html>

How to Care for a Child with COVID-19 at home: Advice for caregivers

Children who have mild COVID-19 symptoms are able to stay at home with a caregiver throughout their recovery without needing hospitalization. If you are caring for a child who has suspected or probable COVID-19, it is important to follow the steps below to protect yourself and others in the home, as well as those in your community. Download the poster at: <https://www.canada.ca/content/dam/phac-aspc/documents/services/publications/diseases-conditions/coronavirus/how-to-care-for-child-with-covid-19-at-home-advice-for-caregivers/how-to-care-for-child-with-covid-19-at-home-advice-for-caregivers.pdf>

Symptoms of COVID-19

- Fever
- Cough
- Difficulty breathing

Monitor your child for symptoms

- Monitor your child's [symptoms](#) as directed by your healthcare provider or [Public Health Authority](#).
- Watch for worsening symptoms, such as fast breathing, difficulty breathing, confusion, an inability to recognize you, chills from fever or fever that will not come down with fever-reducing medication (e.g. ibuprofen, acetaminophen) for more than 12 hours.
- **IF YOUR CHILD DEVELOPS SEVERE SYMPTOMS, CALL 911 OR YOUR LOCAL EMERGENCY NUMBER**
- If calling an ambulance, tell the dispatcher that the child has COVID-19. If going to the hospital in a private vehicle, call ahead to the hospital and let them know that the child has COVID-19.

Keep your hands clean and avoid spreading infections to others:

- Your child should remain in your home or in a monitored outdoor space, should not play with friends or go to school or to public areas, and should not be within 2 metres of others if possible.
- Do not share personal items with the child, such as toothbrushes, towels, bed linen, utensils or electronic devices.
- Do not share food and drinks.
- Use a separate bathroom from the child if possible. If not possible, put the toilet lid down before flushing.
- For breastfeeding mothers: given the health benefits to your child from breastfeeding, it is recommended that you continue breastfeeding. Wear a face mask to avoid exposure to the disease.
- If you are feeding with formula or expressed milk, sterilize the equipment carefully before each use and do not share bottles or a breast pump.

Keep your environment clean

- Place used face masks, gloves and other contaminated items in a lined container, secure the contents and dispose of them with other household waste.
- Place possibly contaminated laundry into a container with a plastic liner and do not shake. Wash with regular laundry soap and hot water (60-90°C), and dry well. Clothing and linens belonging to the child can be washed with other laundry. Gloves and a face mask should be worn when in direct contact with contaminated laundry.
- At least once daily, use an approved hard-surface disinfectant to disinfect surfaces that people in the home touch often (e.g., toilets, laundry containers, bedside tables, doorknobs, phones and television remotes). Clean touch screens with 70% alcohol wipes.

Monitor yourself for symptoms

- Monitor yourself for symptoms and follow any advice provided by your local public health authority about self-isolating.
- If you develop even mild symptoms, isolate yourself as quickly as possible and contact your local Public Health Authority for further instructions.

Public information gathered for distribution

CORONAVIRUS DISEASE (COVID-19): HOW TO CARE FOR A CHILD WITH COVID-19 AT HOME: ADVICE FOR CAREGIVERS

Children who have mild COVID-19 symptoms are able to stay at home with a caregiver throughout their recovery without needing hospitalization.

If you are caring for a child who has suspected or probable COVID-19, it is important to follow the steps below to protect yourself and others in the home, as well as those in your community.

Symptoms of COVID-19

- ☐ Fever
- ☐ Cough
- ☐ Difficulty breathing

Monitor your child for symptoms

- ▶ Monitor your child's **symptoms** as directed by your healthcare provider or **Public Health Authority**.
- ▶ Watch for worsening symptoms, such as fast breathing, difficulty breathing, confusion, an inability to recognize you, chills from fever or fever that will not come down with fever-reducing medication (e.g. ibuprofen, acetaminophen) for more than 12 hours.
- ▶ **IF YOUR CHILD DEVELOPS SEVERE SYMPTOMS, CALL 911 OR YOUR LOCAL EMERGENCY NUMBER**
- ▶ If calling an ambulance, tell the dispatcher that the child has COVID-19. If going to the hospital in a private vehicle, call ahead to the hospital and let them know that the child has COVID-19.

Keep hands clean

- ▶ **Wash your hands** and those of your child often with soap and water for at least 20 seconds, especially after any type of contact with the child (e.g. changing diapers) and after removing gloves.

- ▶ If soap and water are not available and if your hands do not look dirty, use an alcohol-based sanitizer (ABHS) that contains at least 60% alcohol. If hands look dirty, remove dirt with a wet wipe first, then use ABHS.
- ▶ Dry hands with disposable paper towels.
- ▶ If not available, use a reusable towel and replace it when it becomes wet. Do not share.
- ▶ Avoid touching your eyes, nose and mouth with unwashed hands and encourage your child not to touch their face, either.

Avoid spreading infection to others

- ▶ Your child should remain in your home or in a monitored outdoor space, should not play with friends or go to school or to public areas, and should not be within 2 metres of others if possible.
- ▶ Do not share personal items with the child, such as toothbrushes, towels, bed linen, utensils or electronic devices.
- ▶ Do not share food and drinks.
- ▶ Use a separate bathroom from the child if possible. If not possible, put the toilet lid down before flushing.
- ▶ For breastfeeding mothers: given the health benefits to your child from breastfeeding, it is recommended that you continue breastfeeding. Wear a face mask to avoid exposure to the disease.
- ▶ If you are feeding with formula or expressed milk, sterilize the equipment carefully before each use and do not share bottles or a breast pump.

Keep your environment clean

- ▶ Place used face masks, gloves and other contaminated items in a lined container, secure the contents and dispose of them with other household waste.
- ▶ Place possibly contaminated laundry into a container with a plastic liner and do not shake. Wash with regular laundry soap and hot water (60-90°C), and dry well. Clothing and linens belonging to the child can be washed with other laundry. Gloves and a face mask should be worn when in direct contact with contaminated laundry.
- ▶ At least once daily, use an **approved hard-surface disinfectant** to disinfect surfaces that people in the home touch often (e.g., toilets, laundry containers, bedside tables, doorknobs, phones and television remotes). Clean touch screens with 70% alcohol wipes

Protect yourself

- ▶ Only one healthy person should provide care for the child, but everyone in your home should follow this guidance.
- ▶ People who are at higher risk of serious illness from COVID-19 should not care for a child with COVID-19. These include elderly persons, those with chronic medical conditions (e.g., heart disease, diabetes) or compromised immune systems.
- ▶ If you need to be within 2 metres of the child, wear a face mask, disposable gloves and eye protection.
- ▶ Do not re-use face masks or gloves.
- ▶ If possible, the child should also wear a face mask when you are caring for them and be encouraged not to touch their face or mask.

Monitor yourself for symptoms

- ▶ Monitor yourself for symptoms and follow any advice provided by your local public health authority about **self-isolating**.
- ▶ If you develop even mild symptoms, **isolate** yourself as quickly as possible and contact your local **Public Health Authority** for further instructions.

Maintain these supplies

- ☐ Face masks (do not re-use)
- ☐ Eye protection (face shield or goggles) for use by caregiver
- ☐ Disposable gloves (do not re-use) for use by caregiver
- ☐ Disposable paper towels
- ☐ Tissues
- ☐ Waste container with plastic liner
- ☐ Thermometer
- ☐ Over the counter medication to reduce fever (e.g. ibuprofen or acetaminophen)
- ☐ Running water
- ☐ Hand soap
- ☐ Alcohol-based hand sanitizer containing at least 60% alcohol
- ☐ Dish soap
- ☐ Regular laundry soap
- ☐ Regular household cleaning products
- ☐ One-step cleaner/disinfectant
- ☐ Hard-surface disinfectant, or if not available, concentrated (5%) liquid bleach and a separate container for dilution
- ☐ Alcohol prep wipes

**WE CAN ALL DO OUR PART IN
PREVENTING THE SPREAD OF COVID-19.

Important Message for Indigenous Communities regarding COVID-19

- The Public Health Agency of Canada is actively monitoring the situation regarding COVID-19 - the novel coronavirus.
- We all have a role to play to prevent the spread of germs within our communities – to protect ourselves, our families, and those at higher risk.
- Together, we can take the following steps to slow the spread of COVID-19 by making a conscious effort to keep a physical distance between each other:
 - Avoid crowded places;
 - Avoid non-essential community and cultural gatherings;
 - Avoid handshakes;
 - Keep a distance of at least 2 arms lengths (approximately 2 metres) from others, as much as possible;
 - Limit contact with people at higher risk (e.g. older adults and those with other health conditions).
- Also, wash your hands often, cough and sneeze into your arm, throw out used tissues right away, clean and disinfect shared surfaces and avoid touching your eyes, nose or mouth.
- For more information about the novel coronavirus visit Canada.ca/coronavirus or call the Government of Canada's toll free line at 1-833-784-4397.
- A message from the Government of Canada

043. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY CORPORATE REGISTRY CHANGES

AS OF: March 31, 2020 / ORIGINAL SOURCE: Alberta Government

WEBLINK: <https://www.alberta.ca/coronavirus-info-for-albertans.aspx>

COVID-19 response to Corporate Registry Changes

Corporate Registry changes

In keeping with public gathering restrictions, deadlines are suspended for corporations, partnerships, cooperatives and non-profit organizations to hold annual general meetings and file their annual returns

These groups will remain active in Alberta, and will not have their corporations, partnerships, cooperatives or non-profit organizations dissolved due to failing to file annual returns.

Learn More at: <https://www.alberta.ca/corporations-cooperatives-organizations-annual-returns.aspx>

044. COVID-19 PUBLIC HEALTH AGENCY OF CANADA EXTERNAL ADVISORY

FALSE AND MISLEADING CLAIMS

AS OF: March 31, 2020 / ORIGINAL SOURCE: Public Health Agency of Canada

WEBLINK: <https://www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection/prevention-risks.html?topic=tilelink#f>

False and misleading cliams

We have not approved any product to prevent, treat or cure COVID-19. Selling unauthorized health products or making false or misleading claims to prevent, treat or cure COVID-19 is illegal in Canada. We take this matter very seriously and we are taking action to stop this activity.

We have also not approved any disinfectant products with claims specific to COVID-19. However, authorized disinfectant products can make a claim of broad spectrum of activity against viruses if they meet specific evidence standards. We are working with companies and we will publish a list of disinfectant products that can make this claim to help Canadians make effective choices.

We encourages anyone who has information regarding potential non-compliant sale or advertising of any health product claiming to treat, prevent or cure COVID-19, to report it using our online complaint form at <https://www.canada.ca/en/health-canada/services/drugs-health-products/medeffect-canada/adverse-reaction-reporting.html>

HEALTHY PARENTING IN THE TIME OF COVID-19

AS OF: March 31, 2020 / ORIGINAL SOURCE: World Health Organization

WEBLINK: <https://www.who.int/emergencies/diseases/novel-coronavirus-2019/advice-for-public/healthy-parenting>

Healthy Parenting in the time of COVID-19

To help parents interact constructively with their children during this time of confinement, these six one-page tips for parents cover planning one-on-one time, staying positive, creating a daily routine, avoiding bad behaviour, managing stress, and talking about COVID-19. Use them to your and your kids' advantage, and have fun in doing so.

1 COVID-19 PARENTING One-on-One Time

Can't go to work? Schools closed? Worried about money? It is normal to feel stressed and overwhelmed.

School shutdown is also a chance to make better relationships with our children and teenagers.
One-on-One time is free and fun. It makes children feel loved and secure, and shows them that they are important.

Set aside time to spend with each child

It can be for just 20 minutes, or longer – it's up to us. It can be at the same time each day so children or teenagers can look forward to it.

Ask your child what they would like to do

Choosing builds their self confidence. If they want to do something that isn't OK with physical distancing, then this is a chance to talk with them about this. (see next leaflet)

Ideas with your baby/toddler

- > Copy their facial expression and sounds
- > Sing songs, make music with pots and spoons
- > Stack cups or blocks
- > Tell a story, read a book, or share pictures

Switch off the TV and phone. This is virus-free time

Ideas with your teenager

- > Talk about something they like: sports, music, celebrities, friends
- > Cook a favorite meal together
- > Exercise together to their favorite music

Ideas with your young child

- > Read a book or look at pictures
- > Make drawings with crayons or pencils
- > Dance to music or sing songs
- > Do a chore together – make cleaning and cooking a game
- > Help with school work

**Listen to them, look at them.
Give them your full attention.
Have fun!**

2 COVID-19 PARENTING

Keeping It Positive

It's hard to feel positive when our kids or teenagers are driving us crazy. We often end up saying "Stop doing that!" But children are much more likely to do what we ask if we give them positive instructions and lots of praise for what they do right.

Say the behaviour you want to see

- Use positive words when telling your child what to do; like 'Please put your clothes away' (instead of 'Don't make a mess')

It's all in the delivery

- Shouting at your child will just make you and them more stressed and angrier. Get your child's attention by using their name. Speak in a calm voice.

Praise your child when they are behaving well

- Try praising your child or teenager for something they have done well. They may not show it, but you'll see them doing that good thing again. It will also reassure them that you notice and care.

Get real

- Can your child actually do what you are asking them? It is very hard for a child to keep quiet inside for a whole day but maybe they can keep quiet for 15 minutes while you are on a call.

Help your teen stay connected

- Teens especially need to be able to communicate with their friends. Help your teen connect through social media and other safe distancing ways. This is something you can do together, too!

3 COVID-19 PARENTING Structure Up

COVID-19 has taken away our daily work, home and school routines. This is hard for children, teenagers and for you. Making new routines can help.

Create a flexible but consistent daily routine

- > Make a schedule for you and your children that has time for structured activities as well as free time. This can help children feel more secure and better behaved.
- > Children or teenagers can help plan the routine for the day – like making a school timetable. Children will follow this better if they help to make it.
- > Include exercise in each day - this helps with stress and kids with lots of energy at home.

You are a model for your child's behavior

- > If you practice keeping safe distances and hygiene yourself, and treat others with compassion, especially those who are sick or vulnerable – your children and teenagers will learn from you.

Teach your child about keeping safe distances

- > If it is OK in your country, get children outside.
- > You can also write letters and draw pictures to share with people. Put them up outside your home for others to see!
- > You can reassure your child by talking about how you are keeping safe. Listen to their suggestions and take them seriously.

Make handwashing and hygiene fun

- ▼ Make a 20-second song for washing hands. Add actions! Give children points and praise for regular handwashing.
- ▼ Make a game to see how few times we can touch our faces with a reward for the least number of touches (you can count for each other).

At the end of each day, take a minute to think about the day. Tell your child about one positive or fun thing they did.

Praise yourself for what you did well today. You are a star!

4 COVID-19 PARENTING Bad Behavior

All children misbehave. It is normal when children are tired, hungry, afraid, or learning independence. And they can drive us crazy when stuck at home.

Redirect

- > Catch bad behavior early and redirect your kids' attention from a bad to a good behavior.
- > Stop it before it starts! When they start to get restless, you can distract with something interesting or fun: "Come, let's play a game together."

Take a Pause

- < Feel like screaming?
Give yourself a 10-second pause.
Breathe in and out slowly five times. Then try to respond in a calmer way.
- < Millions of parents say this helps - A LOT.

Use consequences

Consequences help teach our children responsibility for what they do. They also allow discipline that is controlled. This is more effective than hitting or shouting.

- > Give your child a choice to follow your instruction before giving them the consequence.
- > Try to stay calm when giving the consequence.
- > Make sure you can follow through with the consequence. For example, taking away a teenager's phone for a week is hard to enforce. Taking it away for one hour is more realistic.
- > Once the consequence is over, give your child a chance to do something good, and praise them for it.

Keep using Tips 1-3

- > One-on-One time, praise for being good, and consistent routines will reduce bad behaviour.
- > Give your children and teens simple jobs with responsibilities. Just make sure it is something they are able to do. And praise them when they do it!

5 COVID-19 PARENTING

Keep Calm and Manage Stress

This is a stressful time. Take care of yourself, so you can support your children.

You are not alone

Millions of people have the same fears as us. Find someone who you can talk to about how you are feeling. Listen to them. Avoid social media that makes you feel panicked.

Take a break

We all need a break sometimes. When your children are asleep, do something fun or relaxing for yourself. Make a list of healthy activities that YOU like to do. You deserve it!

Listen to your kids

Be open and listen to your children. Your children will look to you for support and reassurance. Listen to your children when they share how they are feeling. Accept how they feel and give them comfort.

Take a Pause

1-minute relaxation activity that you can do whenever you are feeling stressed or worried

Step 1: Set up

- Find a comfortable sitting position, your feet flat on the floor, your hands resting in your lap.
- Close your eyes if you feel comfortable.

Step 2: Think, feel, body

- Ask yourself, "What am I thinking now?"
- Notice your thoughts. Notice if they are negative or positive.
- Notice how you feel emotionally. Notice if your feelings are happy or not.
- Notice how your body feels. Notice anything that hurts or is tense.

Step 3: Focus on your breath

- Listen to your breath as it goes in and out.
- You can put a hand on your stomach and feel it rise and fall with each breath.
- You may want to say to yourself "It's okay. Whatever it is, I am okay."
- Then just listen to your breath for a while.

Step 4: Coming back

- Notice how your whole body feels.
- Listen to the sounds in the room.

Step 5: Reflecting

- Think 'do I feel different at all?'
- When you are ready, open your eyes.

Taking a Pause can also be helpful when you find your child is irritating you or has done something wrong. It gives you a chance to be calmer. Even a few deep breaths or connecting with the feeling of the floor beneath can make a difference.

You can also Take a Pause with your children!

6 COVID-19 PARENTING

Talking about COVID-19

Be willing to talk. They will already have heard something. Silence and secrets do not protect our children. Honesty and openness do. Think about how much they will understand. You know them best.

Be open and listen

Allow your child to talk freely. Ask them open questions and find out how much they already know.

Be honest

Always answer their questions truthfully. Think about how old your child is and how much they can understand.

Be supportive

Your child may be scared or confused. Give them space to share how they are feeling and let them know you are there for them.

It is OK not to know the answers

It is fine to say "We don't know, but we are working on it; or we don't know, 'but we think'." Use this as an opportunity to learn something new with your child!

Heroes not bullies

Explain that COVID-19 has nothing to do with the way someone looks, where they are from, or what language they speak. Tell your child that we can be compassionate to people who are sick and those who are caring for them.

Look for stories of people who are working to stop the outbreak and are caring for sick people.

There are a lot of stories going around

Some may not be true. Use trustworthy sites:

<https://www.who.int/emergencies/diseases/novel-coronavirus-2019/advice-for-public> and

<https://www.unicef.org/coronavirus/covid-19> from WHO and UNICEF.

End on a good note

Check to see if your child is okay. Remind them that you care and that they can talk to you anytime. Then do something fun together!

046. COVID-19 AHS EXTERNAL ADVISORY

USING TECHNOLOGY TO CONNECT

AS OF: April 2, 2020 / ORIGINAL SOURCE: Alberta Health Services / WEBLINK:

<https://www.albertahealthservices.ca/assets/info/ppih/if-ppih-connecting-with-tech.pdf>

Using Technology to connect with your loved ones

Technology is an easy way to stay connected with your loved ones. Social distancing does not mean social isolation. Now, more than ever, we need to find smart ways to stay connected. All sorts of online options exist to make it easy and convenient to stay in touch with loved ones. While no technology can take the place of in-person human interaction, video chat services like Skype, or Internet-based communication channels such as e-mail and social media, can facilitate social interactions when visits with friends and family are limited, or not possible.

Technologies to Stay Connected

Phones

Calling loved ones is a great way to keep in touch, and with cell phone plans with nationwide minutes, families can connect across the globe.

Skype

Skype has revolutionized the ways that families stay in touch, making it easy to make free video calls from anywhere in the world with an Internet connection. Skype can be downloaded on a phone, laptop or tablet.

Google Duo

Google Duo is another option to Skype that can be easily downloaded on a laptop, phone or a tablet. The Google Duo is the highest quality video calling application that is simple and reliable to use.

Facebook

Let your loved ones know how you are doing with a quick update or message during the day.

Facebook Messenger

At this time, when most people are on Facebook, they also have access to Messenger. Messenger has convenient features like texting, video and voice messaging that can be used free Wi-Fi.

Apple Face-Time

Iphones have the convience of using Face-Time as a way to connect face to face at any time from any place. Face-Time functionality is already built in and can be used at a touch of a button.

E-Mail

E-Mails are not as personal as a face-to-face conversation or hearing someone's voice on the phone, but it is an easy way to stay in touch if you don't have time to talk. A quick e-mail can help pass the time and make everyone feel connected.

Texting

Texting is a great way to check-in and lets your loved ones know you are thinking of them at a moment's notice. Sending a quick hello is an easy way to make someone's day.

See attached instructions on how to Download – Video Messaging through Skype, Apple Face Time and Google Duo.

048. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY MASS GATHERING RESTRICTIONS UPDATE

AS OF: April 1, 2020 / ORIGINAL SOURCE: Alberta Government

WEBLINK: <https://www.alberta.ca/coronavirus-info-for-albertans.aspx#p22780s6>

Mass gathering restrictions

Albertans are prohibited from gathering in groups of more than 15 people in both indoor and outdoor spaces:

- All gatherings, indoor or outdoor, over 15 people must be cancelled.
- Gatherings in outdoor public spaces are limited to groups of 15 people in one location and must observe 2-metre physical distancing requirements.
- In outdoor spaces where individuals or families are walking, people must observe 2-metre physical distancing requirements.
- Access to all public recreation facilities, private entertainment facilities, bars and nightclubs is prohibited.
- All dine-in services are prohibited.
- Retail, clothing and gaming stores are prohibited from offering services in facilities accessible by the public.
- Visitation to long-term care and other continuing care facilities is limited to essential visitors only
- Close contact personal services are restricted from providing services to Albertans.

View all mass gathering restrictions at: <https://www.alberta.ca/restrictions-on-gatherings-and-businesses.aspx>

049. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY INFO FOR SENIORS AND OTHER VULNERABLE GROUPS

AS OF: April 2, 2020 / ORIGINAL SOURCE: Alberta Government

WEBLINK: <https://www.alberta.ca/coronavirus-info-for-albertans.aspx#p22780s6>

Info for seniors and other vulnerable groups

Individuals over 60 years of age and those with pre-existing health conditions are most at risk of severe symptoms from COVID-19.

Continuing care, long-term care and seniors lodges

To prevent the spread of respiratory viruses, including COVID-19, among seniors and vulnerable groups:

- Visitors to any continuing care, long-term care and seniors lodges in Alberta are limited to essential visitors only.
- Each essential visitor must be verified and undergo a health screening prior to entering the facility. This includes a temperature check and a questionnaire.
- Facilities must have security staff or a greeter to conduct this screening and verify the visitor is designated.
- Exceptions to these essential visitor rules will be made for family members to visit a person who is dying, so long as only one visitor enters the facility at a time.

See guidance on visitation restrictions for continuing care, long-term care and seniors lodges:

<https://www.alberta.ca/coronavirus-info-for-albertans.aspx#p22780s6>

Updated operational standards for facilities

Updated requirements have been established for licensed supportive living, long-term care facilities and service providers licensed under the [Mental Health Services Protection Act](#).

These expectations are for all operators or service providers, residents, staff, as well as any essential visitors of these facilities.

See Updated Operational Standards: <https://www.alberta.ca/assets/documents/covid-19-updated-operational-standards.pdf>

New outbreak control standards for facilities

A new public health order establishes rules for operators, managers and staff at congregate health settings on how to respond to an outbreak of COVID-19. These standards and directions apply to all hospitals, nursing homes, designated supportive living and long-term care facilities, seniors lodges and facilities in which residential addiction treatment services are offered.

Support for seniors at home

Seniors can contact 211 if they need help finding resources in their community. 211 is a comprehensive referral system accessible to all Albertans.

Call or text 2-1-1, or visit ab.211.ca.

050. COVID-19 PUBLIC HEALTH AGENCY OF CANADA EXTERNAL ADVISORY

NATIONAL COVID-19 VOLUNTEER RECRUITMENT

SENT DATE: April 3, 2020 / **ORIGINAL SOURCE:** Public Health Agency of Canada

WEBLINK: <https://emploisfp-psjobs.cfp-psc.gc.ca/psrs-srfp/applicant/page1800?toggleLanguage=en&poster=1437722>

National COVID-19 Volunteer Recruitment Campaign

Volunteer Recruitment - Various locations across Canada - Non remunerated as this is for volunteers

Closing date: 24 April 2020 - 23:59, Pacific Time / Who can apply: Persons residing in Canada.

Apply online at: <https://emploisfp-psjobs.cfp-psc.gc.ca/psrs-srfp/applicant/page1800?toggleLanguage=en&poster=1437722>

Important messages

National COVID-19 Volunteer Recruitment Campaign - We need you! The Government of Canada is working with provincial and territorial governments to respond to COVID-19. We are seeking volunteers to help in the following areas:

1. Case tracking and contact tracing;
2. Health system surge capacity;
3. Surveillance data collection and reporting.

We are building an inventory of volunteers from which provincial and territorial governments can draw upon as needed. We welcome ALL volunteers as we are looking for a wide variety of experiences and expertise. Please note that we have included a list of Yes/No questions that you will be asked to answer to so we can better match the volunteer work to be assigned. We thank you in advance for helping protect the health of Canadians. NOTE: Some jurisdictions have already asked for applications to cover surge capacity. If you have already applied directly to a call-out from your province, please do not apply to this national process. This will help to cut down on processing applications more than once.

Positions to be filled: Number to be determined

Other information

The Public Service Commission will collect your personal information for the purposes of recruiting volunteers for provincial and territorial public services to assist the COVID-19 response. We urge you to take note of the Privacy Notice Statement of the GC Jobs website. By providing your application to become a volunteer, you consent to the collection, use and disclosure of your information with the provincial and territorial authorities solely for the purpose of their needs of recruiting volunteers for the COVID-19 response.

It is to be noted that the use of the GC Jobs website for this posting is for the recruitment of volunteers in provincial and territorial public services and not for employee or volunteer positions within the Government of Canada. Please note that the preference mentioned below applies to federal public service positions only. It does not apply to this volunteer recruitment campaign.

We thank all those who apply. Only those selected for further consideration will be contacted.

051. COVID-19 PUBLIC HEALTH AGENCY OF CANADA EXTERNAL ADVISORY PREGNANCY, CHILDBIRTH AND CARING FOR NEWBORNS

AS OF: April 1, 2020 / ORIGINAL SOURCE: Public Health Agency of Canada

WEBLINK: <https://www.canada.ca/en/public-health/services/publications/diseases-conditions/pregnancy-advise-mothers.html>

Pregnancy, childbirth and caring for newborns: advice for mothers (COVID-19)

Pregnancy

COVID-19 is a new disease and we are still learning how it affects pregnant women. There is currently no evidence that suggests pregnant women are at a higher risk of becoming seriously ill from COVID-19. There is currently no evidence that a developing child could be negatively affected by COVID-19. Throughout pregnancy, women experience changes in their bodies that may increase the risk of other illnesses, such as viral **respiratory infections**. This is why it is important for pregnant women, especially those at high risk of developing severe complications, should take the following precautions to protect against the possibility of becoming ill:

- **Stay home** as much as possible, except for important medical appointments.
- **Talk to your doctor, obstetrician or midwife** about the possibility of telephone or videoconference appointments.
- **Avoid unnecessary visitors** to your home.
- **Wash your hands** often with soap and water for at least 20 seconds or, if not available, use alcohol-based hand sanitizer.
- **Practice physical distancing**. Keep a distance of at least two metres from others.
- **Avoid touching** your mouth, nose, and eyes.
- **Avoid crowded places and peak-hours**. Make limited trips to the store for essentials
- **Avoid travel by public transit**.

If you have travelled outside of Canada, had close contact with someone who has or is suspected to have COVID-19 in the last 14 days, you need to [self-isolate](#). If you have been diagnosed with COVID-19, or are waiting to hear the results of a lab test for COVID-19, you must [isolate at home](#).

Childbirth

There is currently **no evidence of mother-to-child transmission** through childbirth when the mother gets COVID-19 in the third trimester.

- If you plan to give birth in a hospital or birth centre, learn about the policies in place.
 - Most hospitals and birth centres have reduced visitors or a no-visitor policy.
 - In most cases, only one support person may be permitted.
 - Your support person is not considered a visitor.
- If you plan to give birth at home, talk to your midwife about:
 - whether homebirths are still an option in your province or territory during the pandemic; and,
 - precautions to take to ensure your home environment is safe.
- If you have COVID-19, talk to your health care provider about the preferred birth plan. The birth plan should be individualized and based on your preferences, the safety of the care provider, as well as obstetric recommendations.
- Your health care provider will consult perinatal (immediately before birth), neonatal (after birth), infectious disease and intensive care specialists, as required.

Breastfeeding

If you or your [child](#) have suspected, probable or confirmed COVID-19, you can stay together in the same room if preferred, especially during the establishment of breastfeeding. Breastfeeding lowers your baby's risk of infection and illness throughout infancy and childhood. The virus that causes COVID-19 has not been found in breast milk and it is **unlikely that COVID-19 can be transmitted while breastfeeding**. If you have suspected, probable or confirmed COVID-19, you must [isolate yourself](#) in your home as much as possible; this includes practicing [physical distancing](#) in your home, with the only exception being the baby. You should take all possible precautions to avoid spreading the virus to your baby. See attached poster or view online for more information:

CORONAVIRUS DISEASE (COVID-19) PREGNANCY, CHILDBIRTH AND CARING FOR NEWBORNS: ADVICE FOR MOTHERS

COVID-19 is a new disease and we are still learning how it affects pregnant women. There is currently no evidence that suggests pregnant women are at a higher risk of becoming seriously ill from COVID-19. There is currently no evidence that a developing child could be negatively affected by COVID-19.

Throughout pregnancy, women experience changes in their bodies that may increase the risk of other illnesses, such as viral **respiratory infections**. This is why it is important for pregnant women, especially those at high risk of developing severe complications, should take the following precautions to protect against the possibility of becoming ill:

- ▶ **Stay home** as much as possible, except for important medical appointments.
- ▶ **Talk to your doctor, obstetrician or midwife** about the possibility of telephone or videoconference appointments.
- ▶ **Avoid unnecessary** visitors to your home.
- ▶ **Wash your hands** often with soap and water for at least 20 seconds or, if not available, use alcohol-based hand sanitizer.
- ▶ **Practice physical distancing**. Keep a distance of at least two metres from others.
- ▶ **Avoid touching** your mouth, nose, and eyes.
- ▶ **Avoid crowded places and peak-hours**. Make limited trips to the store for essentials
- ▶ **Avoid travel by public transit**.

If you have travelled outside of Canada, had close contact with someone who has or is suspected to have COVID-19 in the last 14 days, you need to **self-isolate**.

If you have been diagnosed with COVID-19, or are waiting to hear the results of a lab test for COVID-19, you must **isolate at home**.

Childbirth

There is currently **no evidence of mother-to-child transmission** through childbirth when the mother gets COVID-19 in the third trimester.

- ▶ If you plan to give birth in a hospital or birth centre, learn about the policies in place.
 - Most hospitals and birth centres have reduced visitors or a no-visitor policy.
 - In most cases, only one support person may be permitted.
 - Your support person is not considered a visitor.
- ▶ If you plan to give birth at home, talk to your midwife about:
 - whether homebirths are still an option in your province or territory during the pandemic; and,
 - precautions to take to ensure your home environment is safe.
- ▶ If you have COVID-19, talk to your health care provider about the preferred birth plan. The birth plan should be individualized and based on your preferences, the safety of the care provider, as well as obstetric recommendations.
- ▶ Your health care provider will consult perinatal (immediately before birth), neonatal (after birth), infectious disease and intensive care specialists, as required.

Breastfeeding

If you or your **child** have suspected, probable or confirmed COVID-19, you can stay together in the same room if preferred, especially during the establishment of breastfeeding.

Breastfeeding lowers your baby's risk of infection and illness throughout infancy and childhood. The virus that causes COVID-19 has not been found in breast milk and it is unlikely that COVID-19 can be transmitted while breastfeeding.

If you have suspected, probable or confirmed COVID-19, you must **isolate yourself** in your home as much as possible; this includes practicing **physical distancing** in your home, with the only exception being the baby. You should take all possible precautions to avoid spreading the virus to your baby, which includes:

- ▶ **Wash your hands** often, especially before and after touching your baby or your other children.
- ▶ Wear a face mask that covers your mouth and nose. **Homemade fabric masks** are not medical devices. There is no evidence they protect you from virus-sized particles.
- ▶ Ensure the environment around you is clean and disinfected with **approved hard-surface disinfectants**.

If you are too ill to breastfeed, you are encouraged to:

- ▶ Feed the child with formula or expressed milk
- ▶ Ask an uninfected adult to feed the baby
- ▶ If using a breast pump, sterilize the equipment carefully before each use
- ▶ Don't share bottles or breast pump

Visitors

Visitors should be restricted or avoided during the period of physical distancing. You do not want anyone to inadvertently expose you to the virus. It is especially important not to have visitors if you or your child have suspected, probable or confirmed COVID-19.

Mental Health

Parents and caregivers who may need to be separated from their children, and children who may need to be separated from their primary caregivers as a result of illness from COVID-19, should consult appropriately trained health or non-health workers for mental health and psychosocial support. Contact your local **Public Health Authority** for assistance.

If you have concerns about COVID-19, talk to your doctor, obstetrician or midwife.

052. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY FAMILY VIOLENCE DURING COVID-19

SENT OUT: April 6, 2020 / **ORIGINAL SOURCE:** Alberta Government

WEBLINK: <https://www.alberta.ca/coronavirus-info-for-albertans.aspx>

Family violence during COVID-19 & Child neglect and abuse

Family Violence

If you or someone you know is at risk of family violence, help is available.

Call our 24-hour Family Violence Info Line at **310-1818** to get anonymous help in over 170 languages.

Other resources:

- Family violence during COVID-19 information sheet (attached) – link:
<https://www.alberta.ca/assets/documents/covid-19-family-violence-fact-sheet.pdf>
- Find information on shelter and financial supports – link:
<https://www.alberta.ca/family-violence-find-supports.aspx>
- Learn how to recognize and prevent family violence – link:
<https://www.alberta.ca/family-violence-prevention-resources.aspx>

Child Neglect and Abuse

Children are at a higher risk for neglect and abuse during times of uncertainty and crisis.

Call the 24-hour child abuse hotline at **1-800-387-KIDS (5437)** if you think a child is being abused, neglected or sexually exploited.

Resources:

- Learn the signs of abuse – link:
<https://www.alberta.ca/what-is-child-abuse-neglect-and-sexual-exploitation.aspx>

Family violence during COVID-19

Help is still available even if you are infected or in isolation

Family violence

Family violence is an abuse of power in a family or other trusting relationship where people rely on each other. When someone experiences family violence, their well-being, security and survival are threatened.

Rates of family violence increase during and following natural disasters, public health crises and economic downturns. It is important to know where you can turn if you are experiencing family violence during the COVID-19 pandemic.

Call 911 if you or someone you know is in immediate danger.

Police and RCMP will respond even if you have COVID-19 or are in self-isolation or quarantine and experiencing symptoms.

Child abuse

With the added stress and time together caused by a public health crisis like COVID-19, families with unhealthy relationships are more likely to experience child abuse. If you suspect child abuse, it is your duty to report it.

Children's Services will respond to cases throughout the COVID-19 pandemic. Call **1-800-387-KIDS (5437)** to report.

Elder abuse

As older adults are more at risk during the COVID-19 pandemic, there is an increased need for them to practice social distancing and self-isolation. This may make them more vulnerable to abuse.

The **Family Violence Info Line (310-1818)** can assist with information on elder abuse shelters and community resources. To learn more, visit alberta.ca/seniors-and-housing.aspx.

Family Violence Info Line

Call **310-1818**.

Available 24/7 in over 170 languages.

Chat online with the info line at alberta.ca/SafetyChat, available daily from 8 a.m. to 8 p.m. in English.

Social isolation

We are asking all Albertans to practice social distancing to help protect themselves and limit the spread of COVID-19. To protect yourself and others, keep at least six feet away from others when going out for groceries, medical trips and other essential needs.

Isolation is a risk factor for family violence. Many people who experience family violence use the support of friends and family to manage their situation.

To learn more visit alberta.ca/EndFamilyViolence

Social distancing and self-quarantine or isolation during the COVID-19 pandemic can make it more challenging to access valuable relationships, but there are ways to stay connected.

If you are in self-isolation, quarantine, lockdown or experiencing any COVID-19 symptoms, stay connected through phone, text, video chat or social media.

Find your supports

Personal supports

Being connected with friends and family helps people be more resilient. Consider different ways to stay with important people in your network.

Remember to support people in your community who are caring for others.

Supports for Albertans

Women's shelters, child advocacy centres, sexual assault centres and many other family violence supports are adapting to the COVID-19 pandemic to continue to offer support.

The **Family Violence Info Line** is available toll-free to all Albertans. They can connect you with resources available near you and help you make a safety plan. Call **310-1818** to get help 24/7 in over 170 languages.

An anonymous web chat is available daily from 8 a.m. to 8 p.m. at alberta.ca/SafetyChat.

What you can do

You can help support someone experiencing family violence by:

- Recognizing if someone is acting differently, seems out of character or is afraid or fearful
- Empathizing with the person experiencing family violence
- Asking what they need and how you can help them
- Listening to what they want and finding ways to stay connected

COVID-19 supports

More information about the Alberta government's response to COVID-19 can be found at alberta.ca/COVID19.

053. COVID-19 ISC EXTERNAL ADVISORY

ACCESSING FINANCIAL BENEFITS AND SUPPORT

SENT: April 9, 2020 / ORIGINAL SOURCE: Indigenous Services Canada / WEBLINK: www.canada.ca/coronavirus-info-indigenous

Accessing financial benefits and support during the COVID-19 outbreak

All Indigenous People have access to these financial benefits. First Nations, Inuit, Metis; regardless of where they reside.

IMPORTANT: Everyone is encouraged to file their 2018 income tax return to ensure they receive the benefits and credits to which they are entitled. To access some of the benefits on the attached pages, a tax return must be filed. ISC is working with CRA to explore simplified methods of accessing benefits.

For current and updated information – log into: <https://www.sac-isc.gc.ca/eng/1581964230816/1581964277298>

The attached provides information on:

- **Support for individuals and families:**
 - Increasing the Canada Child Benefit
 - Special Goods and Services Tax credit payment
 - Extra Time to file income tax returns
 - Mortgage support
- **Support for people facing unemployment, who are sick, quarantined, impacted by self-isolation or unable to work:**
 - The new Canada Emergency Response Benefit
 - Improved access to Employment Insurance sickness benefits
 - Apply for Employment Insurance
- **Support for Indigenous communities and people who are vulnerable:**
 - A new Indigenous Community Support Fund
 - Enhancing the Reaching Home initiative
 - Support for women’s shelters and sexual assault centres
 - Support for First Nations and Inuit Health
 - Support for Emergency Management on reserve
- **Support for Seniors:**
 - Reduced minimum withdrawals for Registered Retirement Income Funds
- **Support for students and recent graduates**
 - A pause on the repayment of Canada Student Loans
- **Support for businesses**

COVID-19 UPDATE

Accessing financial benefits and support during the COVID-19 outbreak

On March 18, 2020, the Prime Minister announced a new set of economic measures to help stabilize the economy during this challenging period. These measures will provide up to \$27 billion in direct support to Canadian workers and businesses.

All Indigenous People have access to these financial benefits.

First Nations, Inuit, Métis, regardless of where they reside

IMPORTANT

Everyone is encouraged to file their 2018 income tax return to ensure they receive the benefits and credits to which they are entitled. To access some of the benefits below, a tax return must be filed. ISC is working with CRA to explore simplified methods of accessing benefits.

Support for individuals and families

Increasing the Canada Child Benefit (must have filed your 2018 tax return)

- If you already receive the Canada Child Benefit payment and have an eligible child under your care in May 2020, you will receive \$300 more per child in addition to your regular payment.
- **No need to re-apply.**
- To apply, click [here](#) or call 1-800-387-1193; or, for Yukon, Northwest Territories and Nunavut: 1-866-426-1527.

Indigenous Services
Canada

Services aux
Autochtones Canada

Canada

Special Goods and Services Tax credit payment (must have filed your 2018 tax return)

- There will be a one-time special Goods and Services Tax credit payment by early May available for low- and modest-income families.
- The average additional payment will be close to \$400 for single individuals and close to \$600 for couples.
- **There is no need to apply for this payment. If you are eligible, you are enrolled automatically when you file your income tax return.**

Extra time to file income tax returns

- For individuals (other than trusts), the tax return filing due date will be extended until June 1, 2020.
- When you file in your income tax return, if you owe money, payment will only be due September 1, 2020, and will not incur interest or penalties.

Mortgage support

- Canadian banks have committed to work with their customers on a case-by-case basis to find solutions to help them manage hardships caused by COVID-19.
- If that is your situation, **contact your financial institution** to ask about flexibility for a mortgage deferral.
- If a lender approves a payment deferral on a Ministerial Loan Guarantee, no extra approval from ISC is needed, unless the terms and conditions of the payment deferral exceed the existing Ministerial Loan Guarantee.

Support for people facing unemployment, who are sick, quarantined, impacted by self-isolation or are unable to work

The new Canada Emergency Response Benefit

- This new financial support, which provides a taxable benefit of \$2,000 a month for up to 4 months, will be accessible through a secure web portal starting in early April. Applicants will also be able to apply via telephone. More information will be shared soon. Click [here](#) for more information.
- Register for direct deposit on CRA's [My Account](#) for the quickest and most reliable way to get benefit and credit payments.

Improved access to Employment Insurance sickness benefits

- If you are sick, quarantined or have been directed to self-isolate, the Government of Canada will waive the requirement to provide a medical certificate to access EI sickness benefits. Click [here](#) to apply.

Apply for Employment Insurance

- Apply online first for regular EI benefits at [Employment Insurance](#) or call toll-free: 1-800-206-7218. You will be automatically enrolled in the Canada Emergency Response Benefit if you are eligible.

**If you require assistance accessing services, please complete an online request.
A Service Canada officer will contact you within 2 business days.**

Canada.ca/service-canada-e-service

Support for Indigenous communities and people who are vulnerable

A new Indigenous Community Support Fund

- The [Indigenous Community Support Fund](#) will provide \$305 million to help Indigenous communities prevent, prepare and respond to coronavirus disease 2019 (COVID-19).
- This funding will help Indigenous communities to address their unique priorities and needs such as support for Elders, food insecurity, educational and other support for children, mental health assistance and emergency response services.
- Through this fund, \$290 million has been allocated to First Nations, Inuit and Métis communities. The remaining \$15 million will be available for regional and urban Indigenous organizations supporting their members living away from their communities, and to regional organizations such as Friendship Centres and the Métis Settlements General Council of Alberta.
- A call for proposals will be launched shortly for the regional and urban Indigenous organizations fund.

Enhancing the Reaching Home initiative

- To support people across Canada experiencing homelessness during the COVID-19 outbreak by providing \$157.5 million to the Reaching Home initiative.
- This support can help address needs such as purchasing beds and physical barriers for social distancing and securing accommodation to reduce overcrowding in shelters.
- Shelters and other non-profit organizations can apply for funding [here](#).

Support for women's shelters and sexual assault centres

- Up to \$50 million will be provided to women's shelters and sexual assault centres across Canada to help with their capacity to manage or prevent an outbreak in their facilities.
- This funding includes up to \$10M to be provided to Indigenous Service Canada's network of 46 emergency shelters on reserve and in Yukon to support Indigenous women and children fleeing violence.

Support for First Nations and Inuit health

- Funding requests for community public health needs in First Nations and Inuit communities can be submitted to First Nations and Inuit Health Branch offices in each of the regions (in British Columbia, through the First Nations Health Authority).
- Funding applications can be for measures including but not limited to:
 - Identified needs to update and/or activate pandemic plans
 - Public health and primary health care capacity to respond to the COVID-19 outbreak
 - Align response efforts with evidence
 - Address immediate needs in the short term
- A [community guide](#) has been developed to assist First Nations with accessing these funds and regular discussions are occurring with the Inuit Public Health Task Group (comprised of Inuit representational organizations, federal and provincial and territorial governments).

Support for Emergency Management on reserve

- First Nation communities on reserve may need emergency assistance services that can be provided through the [Emergency Management Assistance Program \(EMAP\)](#).
- At this time, EMAP assistance is dedicated to ensure the immediate health and safety response of First Nations related to COVID-19, in addition to other expenses that would typically be supported by the EMAP.

Support for seniors

Reduced minimum withdrawals for Registered Retirement Income Funds

- A new measure in place to reduce the required minimum withdrawal amounts from Registered Retirement Income Funds (RRIFs) by 25% for 2020.

Support for students and recent graduates

A pause on the repayment of Canada Student Loans

- Effective March 30, we are placing a six-month interest-free pause on the repayment of Canada Student Loans for all student loan borrowers. No payment will be required and interest will not accrue during this time.
- **Students do not need to apply for the repayment pause.**

Support for businesses

There are also suite of measures which have been released to support businesses. These include support to avoid layoffs, access to credit, and more. Visit the Government of Canada's [COVID-19 Economic Response Plan](#) for details.

For more information, visit the Government of Canada's
[COVID-19 Economic Response Plan](#)

054. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY CAREGIVER SUPPORT

SENT: April 16, 2020 / **ORIGINAL SOURCE:** Alberta Gouvernement

WEBLINK: <https://www.alberta.ca/coronavirus-info-for-albertans.aspx>

Caregiver Support

Nearly one million Albertans act as caregivers for loved ones experiencing challenges related to illness, disability or aging. These caregivers need support too.

Caregivers can get psychosocial and other peer and community supports by calling the toll-free caregiver advisor line at 1-877-453-5088 or going online to <http://www.caregiversalberta.ca/>

CARING FOR A LOVED ONE? YOU ARE NOT ALONE.

Do you assist a family member or friend with challenges resulting from illness, disability or aging? We're here for you.

As an organization of caregivers for caregivers, we understand how hard providing care can be. Whether you're looking for someone to talk to, trying to find resources, or want to better manage the stress of providing care—we can help.

COVID-19 UPDATE: Caregivers Alberta is still open and we will continue to offer support through our Caregiver Advisor and online programming (see our COVID-19 Resources Page: <http://www.caregiversalberta.ca/covid-19-resources/>).

055. COVID-19 PUBLIC HEALTH AGENCY OF CANADA EXTERNAL ADVISORY

WELLNESS TOGETHER CANADA

SENT: April 16, 2020 / **ORIGINAL SOURCE:** Public Health Agency of Canada

WEBLINK: <https://www.canada.ca/en/public-health/services/diseases/coronavirus-disease-covid-19.html>

Wellness Together Canada

Wellness Together Canada: Mental Health and Substance Use Support

Introduction

We recognize the significant strain that COVID-19 has placed on individuals and families across the country. Many people are concerned about their physical and mental well being. Canadians are being challenged in a number of ways because of isolation, financial and employment uncertainty and disruptions to daily life. Wellness Together Canada provides tools and resources to help get Canadians back on track. These include modules for addressing low mood, worry, substance use, social isolation and relationship issues.

Where to Start

Wellness Together Canada provides free online resources, tools, apps and connections to trained volunteers and qualified mental health professionals when needed. Click the 'Get Started' button below to create an account and answer a series of questions to guide you in choosing from a variety of tools and resources to get you back on track.

Online Resources: <https://ca.portal.gs/>

You can access educational resources and immediate support crisis lines without creating an account.

NEED IMMEDIATE SUPPORT?

If you are in crisis or require support right away, please choose from one of the crisis options below:

Youth: Text WELLNESS to 686868

Adults: Text WELLNESS to 741741

Call 911 if you are in immediate danger or need urgent medical support.

Helpful Resources

Canadians are resourceful and our population is diverse. To meet people's individual needs and preferences, we are offering a wide range of resources and support for Canadians. The resources below can be accessed without creating an account.

Youth: Strategies for getting through this together:

<https://kidshelpphone.ca/get-info/were-here-for-you-during-covid-19-novel-coronavirus/>

Adults: Strategies for coping with mental health and addictions:

NCSA Programs and Services During COVID-19

Native Counselling Services of Alberta's top priority is the health and safety of our clients, staff and communities during this challenging time. We remain committed to working to ensure your needs are met in the best and safest way possible and to updating you with changes to our services as soon as possible.

Our offices, programs and services have changed to continue to meet the needs of our clients during the Covid-19 outbreak. All client contact will be done over the phone only. We encourage everyone to follow social distancing requirements and to take good care of yourself and each other.

Please call the specific numbers below if you have questions about the changes or if you need support:

Courtworker Program:

- Central Region: (780) 423-2141
- South Region: (403) 237-7850
- Northeast Region: (780) 645-5250
- Northwest Region: (780) 532-9359

Family Services Program:

- Edmonton Family Services Programs: (587) 855-6732
- Stony Plain Family Services Programs: (780) 963-8749
- St Paul Family Services Programs: (780) 645-5250
- Edmonton Indigenous Housing First: (587) 855-6734

Cunningham Place: (780) 990-1120

Residential Health Support Workers: (780) 905-0848

Stan Daniels Healing Centre: (780) 495-3748

Buffalo Sage Wellness House: (780) 917-8110

BearPaw Legal Education and Media: (780) 451-4002

NCSA Head Office: (780) 451-4002

We will ensure a staff member returns your call to address your concerns as best we possibly can. Thank you for your continued work with us and for our communities.

Sincerely,

Dr. Allen Benson

Chief Executive Officer

Indigenous Hospital Experience-Changes & Effects – Part I

Walking through the doors of the hospital has changed from what it used to be.

It can make some people feel nervous or intimidated with the new atmosphere.

Please be assured that all these changes are meant to ensure everyone's safety.

Stated below are some new experiences that may occur during your stay or visit.

Hospital Appearances

Physical appearance of the hospital has changed:

Less people around

Less table and chairs in the Cafeteria and cash is no longer accepted only debit and credit cards.

Meal Vouchers are now in the 1F1 Rehab area (By the big cafeteria area) from 8am-4pm. After 4pm they will be in the Admitting area. This will all be based on a Monday-Friday schedule.

Please note that some of the hotels have shut down their restaurants and alternative meal plans will have to be put in place

Front Entrance Screening Protocols

A screening process in place as soon as you walk in.

You will be greeted by workers who will be wearing a mask with a face shield, yellow gown and gloves.

They will ask you questions in regards to how you're feeling and where you are going. This is important for people's safety.

You will have to hand sanitize as you walk in.

Every time you go outside you have to hand sanitize when you come back in. This includes going out for a smoke

If needed, one of the Awasisak team members can meet you at the door to walk you through the process and take you to your unit

Contact Information:

Please call Chrystal Plante at 780-407-2314

****Please note that these guidelines are subject to change****

~April 14, 2020~

Indigenous Hospital Experience-Changes & Effects - Part II

Essential Visitor Guidelines

In the Children's hospital there will only be **1 Essential Visitor allowed**. Attached is a link with updated information

<https://www.albertahealthservices.ca/assets/healthinfo/ipc/hi-ipc-covid19-infosht-visiting-pts-pandemic.pdf>

Transportation

Taxis no longer pick up at the hospital and only in residential areas. Unless for example, Edmonton Referral, Big Stone Referral or North Peace makes the call for pick up.

There is now free parking in the parkades and surrounding areas of the hospital

It is encouraged to use the stairs as much as possible as it promotes social distancing better than elevators

Spiritual Services

Smudging ceremonies are still available through the Indigenous Health program with the Cultural Helpers. However, there is a limit of 5 people per ceremony and physical distancing is practiced

Our Stollery Chaplain is available for emotional/spiritual support for families from all faith and spiritual traditions. No religious services are being held at this time.

Although the hospital atmosphere and processes have changed, please know that the Awasisak team is here to support and help. Currently our office is closed to the public but we are available to connect by phone or email and we can come meet up within the hospital for those requiring assistance.

Contact Information:

Please call Chrystal Plante at 780-407-2314

Please note that these guidelines are subject to change

058. COVID-19 PHAC EXTERNAL ADVISORY

CORONAVIRUS DISEASE AND FOOD SAFETY

SENT: April 20, 2020 / **ORIGINAL SOURCE:** Public Health Agency of Canada

WEBLINK: <https://www.canada.ca/en/health-canada/services/food-nutrition/food-safety/covid19.html>

Coronavirus disease (COVID-19) and food safety

Food safety during the COVID-19 pandemic

Scientists and food safety authorities around the world are closely monitoring the spread of COVID-19. There are currently no reported cases of COVID-19 being spread through food. If we become aware of a potential food safety risk, we will take appropriate actions to protect the safety of Canada's food supply.

Safe food practices

You can lower your risk of infection and kill the virus that causes COVID-19 by following safe food handling and cooking practices.

- Use common cleaning and disinfection methods to kill coronaviruses.
- Wash your hands with soap and warm water for at least 20 seconds before and after handling food and food packaging. If you do not have running water, use one of the approved hand sanitizers.
- Wash your fruits and vegetables under running water.
- Washing fresh produce with soap, chlorine or other chemicals is not recommended. Fresh produce is porous and can absorb chemicals that are not intended for you to eat.
- Cook your food to recommended safe internal temperatures. Coronaviruses are killed by normal cooking temperatures.
- Avoid cross-contamination of raw and ready-to-eat or cooked foods.
- Disinfect any surfaces that will come in contact with food.

Safe shopping: when you are out and when you get back

- Use these tips to keep you safe while grocery shopping and bringing your groceries home.
- Use hand sanitizers at the entrance of the store, if they are available.
- Bring your own clean reusable grocery bags (if permitted) or consider using bags provided at retail.
- Keep your distance from other people while shopping (at least 2 arms lengths, approximately 2 metres).
- Avoid touching items you are not going to take.
- Avoid touching your eyes, nose and mouth.
- Use hand sanitizers when exiting the store, if they are available.
- Wash your hands when you get back home.
- Put away your groceries, especially items requiring refrigeration.
- Wash your hands after handling food and food packaging.
- Use proper food handling and cooking practices

Safe home food delivery and online food shopping

Use these tips to keep you safe when having food delivered to your home.

- Use contactless payment whenever possible: key fob, pay online, tap and go, mobile payments
- Ask for contactless delivery if available. Have your food dropped off at the doorstep.
- Keep your distance from the delivery person (at least 2 arms lengths, approximately 2 metres).
- Wash your hands after handling the delivery.
- Put away your groceries, especially items requiring refrigeration.
- Wash your hands after handling food and food packaging.
- Use proper food handling practices.

063. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY WEARING MASKS UPDATE

AS OF: May 13, 2020 / ORIGINAL SOURCE: Alberta Government

WEBLINK: <https://www.alberta.ca/coronavirus-info-for-albertans.aspx#goa-grid23425>

Wearing Masks

Albertans are encouraged to wear non-medical masks when out in public places where keeping a distance of 2 metres is difficult.

Medical masks (N95, surgical or procedure masks):

- must be kept for health care workers and people providing direct care to COVID-19 patients

Non-medical masks (cloth or homemade):

- should only be used in addition to other protective steps
- are not proven to protect the person wearing it, but may help protect others
- cover your mouth and nose to prevent respiratory droplets from contaminating other people or surfaces
- must be worn and taken on/off properly as the outside can become contaminated

Learn How to wear masks properly: <https://www.alberta.ca/prevent-the-spread.aspx#p25621s4>

064. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY RESTRICTIONS ON GATHERINGS

AS OF: May 15, 2020 / **ORIGINAL SOURCE:** Alberta Government

WEBLINK: <https://www.alberta.ca/coronavirus-info-for-albertans.aspx>

Restrictions on Gatherings

Unless otherwise identified in public health orders, such as workplaces, places of worship or in restaurants, gatherings of:

- more than 15 people are not allowed in one indoor location
- more than 50 people are not allowed in one outdoor location

All gatherings under these limits must occur in a space that allows for mandated physical distancing of at least 2 metres from each other.

Examples of indoor and outdoor gatherings include

- business and education: seminars, workshops
- family events: weddings, funerals

Worship services and funerals

Worship leaders are encouraged to continue holding worship services and funerals remotely but can offer multiple services to reduce attendance to 50 people or one-third of normal attendance, whichever is smaller and whichever ensures physical distancing will be maintained. Congregational singing is a high-risk activity and is not allowed.

For more information see:

- Guidance for places of worship: <https://www.alberta.ca/assets/documents/covid-19-relaunch-guidance-places-of-worship.pdf>
- Singing Restrictions: <https://www.alberta.ca/restrictions-on-gatherings.aspx#singing>

065. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY CHILD CARE UPDATE

AS OF: May 13, 2020 / **ORIGINAL SOURCE:** Alberta Government

WEBLINK: <https://www.alberta.ca/coronavirus-info-for-albertans.aspx>

Restrictions on Gatherings

Daycares and out-of-school cares can start to resume operations on May 14 with limits on occupancy:

- Operations must resume with increased infection prevention and control measures to minimize the risk of increased transmission of infections.
- Guidance for a safe reopening is available on Alberta Biz Connect: <https://www.alberta.ca/biz-connect.aspx>
- Home-based child care with 6 or fewer children (not including the caregiver's own children) can continue operating as long as safety measures are in place.

Licensed child care:

Licensed daycare and out-of-school care programs can begin reopening in Stage 1 of Alberta's relaunch strategy as of May 14.

- Guidance for Licensed Child Care Centres (Daycares and Out-of-School Care) (PDF, 288 KB): <https://www.alberta.ca/assets/documents/covid-19-relaunch-guidance-daycare-out-of-school-care.pdf>
- Alberta Biz Connect – additional workplace guidance and supports to help businesses and non-profits affected by COVID-19 begin to reopen and resume operations safely

Relief funding for the child care sector to ensure they are ready to safely restart and support families through Alberta's economic recovery. Link: <https://www.alberta.ca/release.cfm?xID=71285388C2A58-EBFA-E8E6-0CEDD4EDF6EB6965>

Preschools will remain closed during Stage 1 of the relaunch due to specific public health considerations for these programs. The process and considerations for reopening preschools is under development based on the direction of the Chief Medical Officer of Health.

Home-based child care:

The maximum number of children allowed in approved family day homes remains temporarily changed to 6, not including their own children. This change allows approved family day home to provide additional child care spaces for people who are able to go into work during Stage 1 or have children at home due to school closures.

This also gives approved day home providers flexibility in keeping their own children at home and brings them in alignment with private providers, who can also provide care for up to 6 children, not including their own, at any one time. We do not monitor private child care providers but can issue closures if they are over this limit.

Enhanced sanitation practices should be used by all home-based child care providers, approved and private:

- routinely clean and disinfect any surface that people regularly touch
- handwashing facilities or hand sanitizer must be available to children
- visitors and children should not enter if they are feeling unwell
- visitors should wash their hands frequently

066. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY **NON-MEDICAL MASKS AVAILABLE TO ALBERTANS**

POSTED: June 8, 2020 / **ORIGINAL SOURCE:** Alberta Government / **WEBLINK:**

https://www.alberta.ca/masks.aspx?utm_source=redirect&utm_medium=sticker&utm_campaign=Covid19&utm_term=masks

Non-Medical Masks Available to Albertans

How to get your free masks:

Starting June 8 you can get 4 free non-medical masks per person at any Alberta A&W, McDonald's Canada and Tim Hortons drive-thru locations. These are available while supplies last with no purchase necessary.

Masks will not be distributed inside restaurants or at locations without drive-thrus.

Other ways to get a mask

If you can't access a participating drive-thru location, we encourage you to ask a family member, friend or neighbour to pick up your 4 masks. You can also call 211 for help.

Masks will also be provided to the following groups to distribute to community members:

- Communities more than 50 km from a drive-thru location
- Long-term care and seniors facilities
- Groups and organizations that support vulnerable Albertans
- First Nations and Metis Settlement communities
- Edmonton and Calgary (for transit users)
- Places of worship

List of communities and organizations distributing masks:

<https://www.alberta.ca/assets/documents/covid19-mask-community-distribution-list.pdf>

Albertans are encouraged to wear non-medical masks in public when it's difficult to maintain physical distancing of 2 metres at all times.

Wearing a homemade or non-medical mask in public is another tool to help prevent the spread of COVID-19. It hasn't been proven that masks protect the person wearing it, but it can help protect people from being exposed to your germs.

Masks should complement – not replace – other prevention measures. Continue physical distancing and good hand hygiene, and stay home when sick.

067.COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY STAGE 2 EFFECTIVE JUNE 12 – LIFTED RESTRICTIONS

POSTED: June 9, 2020 / **ORIGINAL SOURCE:** Alberta Government / **WEBLINK:** <https://www.alberta.ca/alberta-relaunch-strategy.aspx>

Alberta Relaunch Strategy – Stage 2 – Effective June 12, 2020

STAGE 2 (Starting June 12)

Stage 2 will allow additional businesses and services to reopen and resume operations starting June 12 with 2 metre physical distancing requirements and other public health guidelines in place. Business operators, sport and recreation services can determine if they are ready to open and ensure all guidance for workplaces is met.

What can open with restrictions:

- K-12 schools, for requested diploma exams and summer school, following guidance
- libraries
- more surgeries
- wellness services such as massage, acupuncture and reflexology
- personal services (esthetics, cosmetics skin and body treatments, manicures, pedicures, waxing, facial treatments, artificial tanning)
- movie theatres and theatres
- community halls
- team sports
- indoor recreation, fitness and sports, including gyms and arenas
- pools for leisure swimming
- VLTs in restaurants and bars
- bingo halls and casinos (but not table games)
- instrumental concerts
- provincial campgrounds at full capacity

Events and gatherings can be larger in stage 2:

- 50 people maximum: indoor social gatherings, including wedding and funeral receptions, and birthday parties
- 100 people maximum: outdoor events and indoor seated/audience events, including wedding and funeral ceremonies
- No cap on the number of people (with public health measures in place):
 - worship gatherings
 - restaurant, cafes, lounges and bars
 - casinos
 - bingo halls

More flexibility for ‘cohort’ groups – small groups of people whose members do not always keep 2 metres apart:

- a household can increase its close interactions with other households to a maximum of 15 people
- performers can have a cohort of up to 50 people (cast members or performers)
- sports teams can play in region-only cohorts of up to 50 players (mini leagues)
- people could be part of a sports/performing and household cohort.

068. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY TRAVEL RESTRICTIONS & RECOMMENDATIONS

SEND DATE: June 9, 2020 / ORIGINAL SOURCE: Alberta Government / WEBLINK: <https://www.alberta.ca/covid-19-travel-advice.aspx>

COVID-19 Travel Restrictions

Travellers entering Alberta from outside Canada:

All non-exempt travellers entering Alberta from outside Canada by air or at the Alberta/U.S. Coutts land border crossing are legally required to follow provincial and federal requirements. Several categories of people are exempted from travel restrictions if they have no symptoms. View updated travel restrictions for travelling outside of Canada at: <https://www.canada.ca/en/public-health/services/diseases/2019-novel-coronavirus-infection/latest-travel-health-advice.html>

Albertans are legally required to isolate for:

- 14 days if they returned from travel outside Canada or are a close contact of someone with COVID-19
- 10 days if they have any COVID-19 symptoms not related to a pre-existing illness or health condition: cough, fever, shortness of breath, runny nose or sore throat

If you have symptoms, take the online assessment to arrange testing

Travel within Alberta:

Responsible travel within Alberta is permitted, including to second homes, vacation homes, cabins, cottages, hotel/commercial accommodations, campgrounds and national and provincial parks, summer homes, cabins and cottages within Alberta is permitted. Physical distancing and gathering restrictions still apply.

If you travel in Alberta:

- take all necessary precautions to protect your health and the health of others
- download and use the ABTraceTogether mobile contact tracing app while out in public.
- check Parks Canada and Alberta Parks for details on restrictions and limited amenities

Travel between provinces:

Non-essential travel outside the province is not recommended. This recommendation will not be lifted until Stage 3 of Alberta's relaunch strategy.

069. COVID-19 PUBLIC HEALTH AGENCY OF CANADA EXTERNAL ADVISORY

COVID-19: SCAMS, FRAUDS AND MISLEADING CLAIMS

SEND DATE: June 9, 2020 / ORIGINAL SOURCE: Public Health Agency of Canada /

WEBLINK: <https://www.canada.ca/en/public-safety-canada/campaigns/covid19.html#b03>

COVID-19: Scams, frauds and misleading claims

Current Reported Scams

There are a number of report scams related to COVID-19.

Protect yourself, beware of:

- Questionable third-party companies offer to help you fill out applications, such as CERB
- Criminals using your identity to sign-up for CERB and receive payments
- Spoofed government, healthcare or research information
- Unsolicited calls, emails and texts requesting urgent action or payment and/or offering medical advice, financial relief, or government assistance and compensation
 - If you didn't initiate contact, you don't know who you're communicating to
 - Never respond or click on suspicious links and attachments
 - Never give out your personal or financial details
- Unauthorized or fraudulent charities requesting money for victims, products or research
 - Don't be pressured into making a donation
 - [Verify that a charity is registered](#)
- High-priced or low-quality products purchased in bulk by consumers and resold for profit
 - These items may be expired and/or dangerous to your health
- Questionable offers, such as:
 - miracle cures
 - herbal remedies
 - vaccinations
 - faster testing
- Fake and deceptive online ads, including:
 - cleaning products
 - hand sanitizers
 - other items in high demand

To view reported scams and trusted resources visit:

<https://www.antifraudcentre-centreantifraude.ca/features-vedette/2020/covid-19-eng.htm>

False and misleading claims:

We have not approved any product to prevent, treat or cure COVID-19. Selling unauthorized health products or making false or misleading claims to prevent, treat or cure COVID-19 is illegal in Canada. We take this matter very seriously and we are taking action to stop this activity.

072. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY NEW MEASURES FOR EDMONTON ZONE

AS OF: October 26, 2020 / **ORIGINAL SOURCE:** Alberta Government /

WEBLINK: <https://www.alberta.ca/restrictions-on-gatherings.aspx>

New Measures for Edmonton Zone

Help stop the spread: The Edmonton area is seeing a rapid rise in active COVID-19 cases. To stop the spread before it gets out of control, additional public health measures are in place for the Edmonton Zone, which includes the City of Edmonton and surrounding communities. This approach is based on evidence that balances efforts to limit the spread of COVID-19 with the harmful impact that aggressive measures can have on other elements of Albertans' health and well-being. Health officials are closely monitoring the Edmonton Zone. Additional measures may be recommended if needed.

Measures: City of Edmonton

Mandatory measures (as of Oct. 26): 15 person limit on social and family gatherings where people are mixing and mingling, including:

- parties
- special event celebrations, such as retirement events or baby showers
- wedding and funeral receptions
- banquets

This limit does not apply to structured events where socializing is not the purpose of the activity. This includes restaurants, worship services, wedding ceremonies, conferences, funeral services or trade shows. Current gathering limits and prevention measures as outlined by official guidance remains in place.

The temporary limit will be reassessed at the end of November 2020. It will be lifted when we are able to bring new case numbers down and sufficiently reduce the spread.

Voluntary measures

- Limit your cohorts to no more than 3: your core household, your school, and one other sport or social cohort.
- Young children who attend child care could be part of 4 cohorts, given that child care settings have not been a high risk for spread.
- Wear a mask in all indoor work settings, except when alone in a workspace like an office or cubicle where you are safely distanced from others, or an appropriate barrier is in place.

All residents and visitors of communities surrounding Edmonton should:

Edmonton zone communities

The public health measures apply to all residents and visitors of communities in the Alberta Health Services (AHS) Edmonton Zone: Beaumont, Devon, Edmonton, Evansburg, Fort Saskatchewan, Gibbons, Leduc, Morinville, Sherwood Park, Spruce Grove, St. Albert, Stony Plain, Thorsby, Surrounding villages and businesses.

073. COVID-19 AHS EXTERNAL ADVISORY CHANGE IN CONTACT TRACING NOTIFICATION PROCESS FOR PUBLIC OR PRIVATE EVENTS

AS OF: Oct 26, 2020 / ORIGINAL SOURCE: AHS / WEBLINK: Sent by email memorandum

Change in Contact Tracing Notification Process for Public or Private Events

Memorandum

Date: Monday, October 26, 2020
To: ZEOCs, CDC and Public Health
From: Dr. Laura McDougall, Senior Medical Officer of Health
Senior Medical Director, Provincial Population and Public Health
RE: Change in Contact Tracing Notification Process for Public or Private Events

Effective today, organizers of events at which attendees are exposed to COVID-19 will be engaged by Alberta Health Services (AHS) in managing notification of event contacts.

If a positive case attended an event while infectious, AHS Public Health will now notify the organizer of the event, and provide that organizer with written notification that the organizer will be directed to email to all event attendees.

We will be asking event organizers to send these emails within 24 hours of us contacting them.

Previously, AHS Public Health was contacting all event attendees by phone. This change will improve the efficiency of the close contact notification process for events such as sports tournaments, weddings, church socials and other gatherings of 10 people or more.

If an event organizer can't support this more rapid email notification process, AHS Public Health will continue to conduct the contact tracing directly.

AHS Public Health will also continue to directly notify close contacts of cases who were exposed outside of any event, and of course: we will continue to directly contact all Albertans who test positive for COVID-19.

To support Albertans in managing the risks associated with social, sporting and other events, we have established a [new webpage](http://www.ahs.ca/events) containing pre- and post-event checklists, and other supports: www.ahs.ca/events.

If you have questions, please contact

Maureen Devolin, Executive Director, Healthy Living, Provincial Population and Public Health at maureen.devolin@ahs.ca

Cindy Dribnenki, Director, Communicable Disease Control, Provincial Population and Public Health at cindy.dribnenki@ahs.ca

075. COVID-19 ALBERTA GOVERNMENT
EXTERNAL ADVISORY
NEW MANDATORY RESTRICTIONS – EFFECTIVE NOV 24

AS OF: Nov 24, 2020 / SOURCE: Alberta Government / WEBLINK: <https://www.alberta.ca/enhanced-public-health-measures.aspx>

New Mandatory Restrictions – Effective November 24th – PAGE 1 OF 3

Stop the spike: COVID-19 cases continue rising across Alberta and the situation is critical. Stronger public health measures are now required to address the growing number of cases. Together, these measures will help protect our health care system, keep schools and businesses open as much as possible, and protect vulnerable Albertans. Health officials are monitoring the situation and will adjust measures if required.

Measures	All Alberta	Enhanced (purple) Areas ¹	Calgary Area ²	Edmonton Area ²
No indoor social gatherings in any setting	Yes	Yes	Yes	Yes
Outdoor gatherings max of 10	Yes	Yes	Yes	Yes
Wedding and funeral services max of 10, no receptions permitted	Yes	Yes	Yes	Yes
No festivals or events	Yes	Yes	Yes	Yes
Grades 7-12 at-home learning Nov 30-Jan 11	Yes	Yes	Yes	Yes
Grades K-6 at-home learning Dec 18-Jan 11	Yes	Yes	Yes	Yes
Working from home should be considered, where possible	Yes	Yes	Yes	Yes
Places of worship at 1/3 normal attendance	No	Yes	Yes	Yes
Restricted access to some businesses and services starting Nov. 27	No	Yes	Yes	Yes
Mandatory masks for indoor workplaces	No	No	Yes	Yes

See attached pages for more details on restrictions or go to:
<https://www.alberta.ca/coronavirus-info-for-albertans.aspx>

075. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY **NEW MANDATORY RESTRICTIONS – EFFECTIVE NOV 24**

AS OF: Nov 24, 2020 / **SOURCE:** Alberta Government / **WEBLINK:** <https://www.alberta.ca/enhanced-public-health-measures.aspx>

New Mandatory Restrictions – Effective November 24th – PAGE 2 OF 3

Indoor and Outdoor Gatherings:

Mandatory restriction – Provincewide – effective Nov. 24

- No indoor social gatherings are permitted in any setting (private homes, public spaces or workplaces)
 - Indoor close contacts must be limited to people in the same household
 - People who live alone can have up to the same 2 non-household contacts for the duration of the restriction
 - Work and support group meetings are not social gatherings, but attendance should be limited and public health measures followed
 - This does not apply to service visits from caregivers, health or child care providers
- Outdoor social gatherings are limited to 10 people and must not have an indoor component
 - Backyard gatherings that require movement in/out of homes are not permitted
 - Attendees should remain distanced at all times and follow public health measures
- Festivals and events are prohibited (indoors and outdoors)

Weddings and Funerals:

Mandatory restriction – Provincewide – effective Nov. 24

- Maximum of 10 people for wedding ceremonies or funeral services
 - This includes the officiant, bride/groom and witnesses
 - This does not include staff or organizers who are not considered an invited guest
 - This applies to any facility, including places of worship and funeral homes.
 - This includes services held indoors or outdoors, seated or non-seated.
- Receptions are not permitted

This measure will help limit exposure, reduce outbreaks and protect vulnerable attendees.

075. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY **NEW MANDATORY RESTRICTIONS – EFFECTIVE NOV 24**

AS OF: Nov 24, 2020 / **SOURCE:** Alberta Government / **WEBLINK:** <https://www.alberta.ca/enhanced-public-health-measures.aspx>

New Mandatory Restrictions – Effective November 24th – PAGE 3 OF 3

Places of Worship:

Mandatory restriction – Enhanced status (purple) areas – effective Nov. 24

- Maximum of 1/3 normal attendance for places of worship
- Physical distancing between households must be maintained
- Mask use is required
- Online services are encouraged
- In-person faith group meetings can continue but must maintain physical distancing and public health measures must be followed

Faith communities are often significant aspects of people's lives, and include intimate and close contact between members. This measure will help limit exposure at these activities, reducing outbreaks and protecting vulnerable members who attend.

Mask Requirements:

Mandatory restriction – Calgary and Edmonton areas – Effective Nov. 24

- Masks are mandatory in all indoor workplaces, except when working alone in an office or a safely distanced cubicle or an appropriate barrier is in place
 - This applies to all employees, visitors, delivery personnel and contractors
 - This includes all locations where employees are present and masks won't pose a safety risk
 - This does not change current student mask requirements in schools
 - This measure will help limit exposure, reduce outbreaks and protect vulnerable attendees.

Employers to allow working from home:

Working from home should be considered, where possible.

076. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY **NEW MANDATORY RESTRICTIONS – EFFECTIVE NOV 27**

AS OF: Nov 24, 2020 / **SOURCE:** Alberta Government / **WEBLINK:** <https://www.alberta.ca/enhanced-public-health-measures.aspx>

New Mandatory Restrictions – Effective November 27th – PAGE 1 OF 3

Business and service restrictions

Effective Nov. 27, new restrictions will limit the amount of contact between people in the community, while still allowing businesses to offer services. These measures apply to all communities on the enhanced list (purple areas). Albertans are encouraged to limit in-person visits to retail locations and use curbside pick up, delivery and online services.

Businesses closed for in-person service:

Mandatory restriction – Enhanced status (purple) areas – Effective Nov. 27

Businesses that are closed for in-person service include:

- Banquet halls, conference centres, trade shows, auditoria and concert venues, non-approved/licensed markets, community centres
- Children's play places or indoor playgrounds
- All levels of sport (professional, semi-professional, junior, collegiate/universities and amateur). Exemptions may be considered.

Restaurants, Bars, Pubs, and Lounges open with restrictions:

Mandatory restriction – Enhanced status (purple) areas – Effective Nov. 27

Restaurants, bars, pubs and lounges will be open with restrictions if they follow all public health guidance in place including:

- Maximum of 6 people from the same immediate household at a table and no movement between tables.
 - People who live alone can meet with up to 2 non-household contacts as long as they're the same two throughout the duration of these restrictions
- Only seated eating and drinking is permitted. No other services or entertainment will be allowed, including billiards, games or darts.
- Liquor can be sold until 10 pm and food-serving establishments must close to in person-dining at 11 pm. Liquor sales apply to casinos, but casinos are not required to close at 11 pm.

Albertans are encouraged to use take out, delivery, drive-thru and curbside pick-up options.

Additional inspections will occur to verify that public health measures are being followed. Establishments that are non compliant may face orders and fines.

076. COVID-19 ALBERTA GOVERNMENT EXTERNAL ADVISORY **NEW MANDATORY RESTRICTIONS – EFFECTIVE NOV 27**

AS OF: Nov 24, 2020 / **SOURCE:** Alberta Government / **WEBLINK:** <https://www.alberta.ca/enhanced-public-health-measures.aspx>

New Mandatory Restrictions – Effective November 27th – PAGE 2 OF 3

Businesses and services open with restricted capacity:

Mandatory restriction – Enhanced status (purple) areas – Effective Nov. 27

Most retail businesses may remain open with capacity limited to 25% of the occupancy set under the Alberta Fire Code.

- Retail, including liquor and cannabis
- Grocery stores
- Pharmacies
- Clothing stores
- Computer and technology stores
- Hardware
- Automotive
- Farmers markets approved by Alberta Agriculture and Forestry
- Unlicensed outdoor seasonal markets

Some entertainment and event services may remain open with capacity limited to 25% of the occupancy set under the Alberta Fire Code.

- Movie theatres
- Museums and galleries
- Libraries
- Casinos, offering slots only. Table games must be closed at this time.
- Indoor entertainment centres including amusement parks, water parks, bingo halls and racing centres.
- Indoor fitness, recreation, sports and physical activity centres, including dance and yoga studios, martial arts, gymnastics and private or public swimming pools.
 - Facilities can be open for individual studio time, training or exercise only.
 - There can be no group fitness, group classes, group training, team practices or games.
 - Instructors can use facility to broadcast virtual fitness classes from, but there can be no group class.

All public health guidance and physical distancing requirements must be followed.

Albertans and businesses are encouraged to limit in-person visits and use curbside pick up, delivery and online services instead.

AS OF: Nov 24, 2020 / **SOURCE:** Alberta Government / **WEBLINK:** <https://www.alberta.ca/enhanced-public-health-measures.aspx>

New Mandatory Restrictions – Effective November 27th – PAGE 3 OF 3

Businesses open by appointment only:

Mandatory restriction – Enhanced status (purple) areas – Effective Nov. 27

Businesses open by appointment only are not permitted to offer walk-in services. Appointments should be limited to one-on-one services.

- Personal services such as hair salons and barbershops, esthetics, manicure, pedicure, body waxing and make-up, piercing and tattoo services,
- Wellness services including acupuncture, massage and reflexology
- Professional services such as lawyers, mediators, accountants and photographers
- Private one-on-one lessons (no private group lessons permitted)
- Hotels, motels, hunting and fishing lodges

These businesses must follow all current public health guidance for their sector and should consider virtual options where possible.

Home-based businesses should follow the restrictions for the type of service they provide.

Using Technology to Connect with Your Loved Ones

Technology is an easy way to stay connected with your loved ones. Social distancing does not mean social isolation. Now, more than ever, we need to find smart ways to stay connected. All sorts of online options exist to make it easy and convenient to stay in touch with loved ones.

While no technology can take the place of in-person human interaction, video chat services like Skype, or Internet-based communication channels such as e-mail and social media, can facilitate social interactions when visits with friends and family are limited, or not possible.

Technologies to Stay Connected

Phones

Calling loved ones is a great way to keep in touch, and with cell phone plans with nationwide minutes, families can connect across the globe.

Skype

Skype has revolutionized the ways that families stay in touch, making it easy to make free video calls from anywhere in the world with an Internet connection. Skype can be downloaded on a phone, laptop or tablet.

Google Duo

Google Duo is another option to Skype that can be easily downloaded on a laptop, phone or a tablet. The Google Duo is the highest quality video calling application that is simple and reliable to use.

Facebook

Let your loved ones know how you are doing with a quick update or message during the day.

Facebook Messenger

At this time, when most people are on Facebook, they also have access to Messenger. Messenger has convenient features like texting, video and voice messaging that can be used free Wi-Fi.

Apple Face-Time

Iphones have the convenience of using Face-Time as a way to connect face to face at any time from any place. Face-Time functionality is already built in and can be used at a touch of a button.

E-Mail

E-Mails are not as personal as a face-to-face conversation or hearing someone's voice on the phone, but it is an easy way to stay in touch if you don't have time to talk. A quick e-mail can help pass the time and make everyone feel connected.

Texting

Texting is a great way to check-in and lets your loved ones know you are thinking of them at a moment's notice. Sending a quick hello is an easy way to make someone's day.

Instructions on how to Download - Video Messaging through Skype, Apple FaceTime and Google Duo

Apple IOS:

To install Facetime Video Calling on iPhone, iPad, or Mac, please use the following directions:

1. Open the settings on your device.

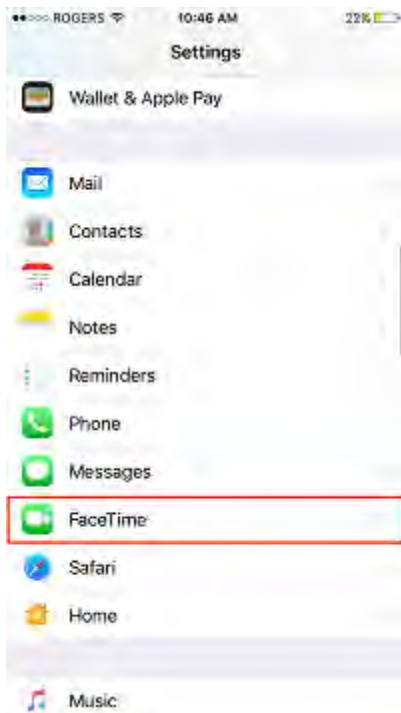

Tap the **silver gear** icon on your home screen to access your settings.

2. Scroll down, and tap FaceTime.

Slide your finger upwards across the screen to scroll down. When you see the **FaceTime** category appear, tap on it.

Using Technology to Connect with Your Loved Ones • 3

3. Move the toggle over to enable FaceTime on your device.

Slide the **toggle** to the right to turn it on. When the slider turns green, it has been enabled.

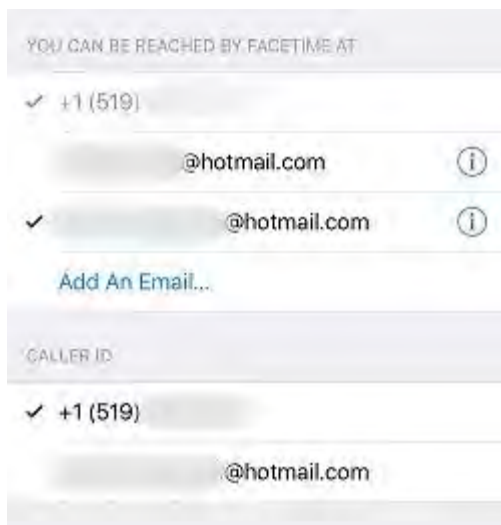

4. Tap Use Your Apple ID for FaceTime, and sign in to your Apple account.

Log in to your Apple ID account using your e-mail address and password.

5. Select which e-mail address(es) associated with your Apple ID you want to use for FaceTime.

Select which address you want people to be able to call you at, and which one you'd like to show up as your caller ID when you call someone. When a check mark appears beside an address or phone number, you've selected it. Tap on an already-checked address to deselect it.

To use FaceTime to make calls:

1. Make sure you have FaceTime properly set up on your device.

Apple devices should come with this app installed, but you may need to make sure it is enabled first before using it.

2. Open the FaceTime app.

Tap the **FaceTime** icon on your home screen to launch the app.

3. Type in the name, e-mail address, or phone number of one of your contacts.

If you already have them saved in your phone, you can simply type their name and tap the suggestion when it appears. For anyone else, type their full e-mail address or phone number.

4. Tap the Video Camera to make a video call, or the phone to make a voice call.

By tapping the **video camera** button, the person you're calling will be able to see you, and whatever you point your device's camera at. By tapping the **phone** button, they will only be able to hear you – not see you – just like a regular phone call.

5. At the top of your screen, select Video or Audio to see your call history.

Tap either **Audio** or **Video** to see a list of calls you've made of each type. You can tap someone's name in your call history to call them again.

You can also make a FaceTime call through your device's address book.

Skype:

How do I get Skype?

1. Go to the [Download Skype page](#) to get our latest version of Skype.
2. Select your device and start the download.
3. You can launch Skype after it is installed.

To get the latest version of Skype for Windows 10 (version 14), please go to the [Microsoft store](#).

How do I sign in to Skype?

You can sign in to Skype with a Skype name, e-mail or phone.

If you already have a Skype or Microsoft account:

1. Open Skype and click or tap **Skype name, e-mail or phone**.
2. Enter your Skype name, e-mail or phone and select **Sign in**.
3. Enter your password and select the arrow to continue. You're now signed in to Skype.

Note: Once you've signed in, Skype will remember your sign in information when you close Skype or sign out and choose to remember your account settings.

If you don't have a Skype or Microsoft account:

1. Start Skype and click or tap **Create new account**.
2. Microsoft will take you through the process to create your new account for Skype.

Google Duo:

How to set up Google Duo?

- Download Google Duo from [Google Play](#). iOS users can download it from [App Store](#).
- Open Duo.
- Click on 'I Agree' to agree with Google's Terms and Conditions.
